I) Introduction

Category Page Builder for Magento 2 is a powerful tool that allows customizing the layout of category pages quickly with drag & drop interface.

- Easy to customize category page layout with drag & drop
- 15+ elements
- 4 templates
- Display subcategories with 3 layouts
- Fully responsive
- 100% compatible with [Magezon Page Builder](#).

HOW IT WORKS:

- In the backend, you first create a layout profile using drag & drop builder.

- After that, apply the layout to your wanted category pages which are then displayed in this layout.

* You can create as many layout profiles as wanted and apply them to any category page.

NOTE: Category Page Builder is developed on a core builder based on which we've built all of our builder extensions. The core builder includes elements and settings that all builder extensions have in common. For detailed guide, please visit:

https://magezon.com/pub/media/productfile/magezon-core-builder-user_guides.pdf.

In this guide, we'll focus on elements and settings that are specific to **Category Page Builder** extension.

II) Where to Find Extension

After installing the extension, navigate to **Store > Settings > Configuration**.

In the panel on the left, span **Magezon Extensions** and choose **Category Page Builder**.

On the right side, you can see **General Settings** including:

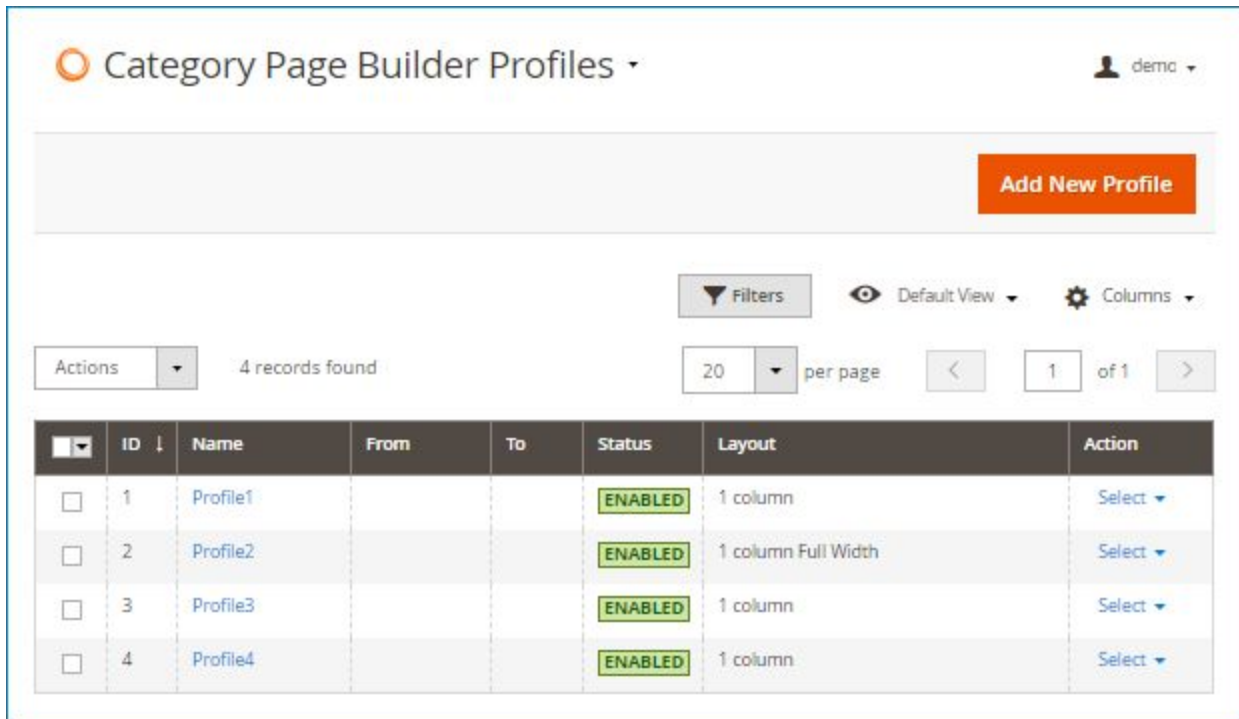

The screenshot shows the 'Configuration' page for the 'Category Page Builder' extension. At the top, it displays 'Store View: Default Config' with a dropdown arrow and a help icon. Below this, the left sidebar shows 'MAGEZON EXTENSIONS' with a dropdown arrow, and 'Category Page Builder' is selected. The main content area is titled 'General Settings' with an expand/collapse icon. It contains three settings: 'Current Version' (1.0.0, [store view]), 'Enable Category Page Builder' (Yes, [store view]), and 'Default Profile' (None, [store view]).

- **Current Version** of the extension.
- **Enable Category Page Builder**: choose **Yes/No** to enable/disable the extension.
- **Default Profile**: choose one layout profile that is applied to all category pages.

III) Create Layout Profile

Navigate to **Catalog > Inventory > Category Page Builder Profiles** to land on the page where you can create a new layout profile and manage all profiles you created.

- As can be seen in the image above, you can view all profiles you created in a grid.
- To create a new layout profile, click **Add New Profile** button on the top right corner. The edit page of the new profile looks like this:

🏠 + 📄 ↔ ⚙️ ↶ ↷ 🖥 📐

≡ ≡≡ ≡≡≡ ≡≡≡≡ ≡≡≡≡≡ ≡≡≡≡≡≡ A +

1. General information

- **Enable Profile:** turn on/off the button to activate/deactivate the profile.
- **Profile Name:** enter profile name.
- **From...To:** specify the active time period of the profile. Out of this time period, your category pages will be back to its default layout.
- **Layout:** choose **1 column** or **1 column Full Width** layout for the profile so that the category pages using this profile will be displayed in the chosen layout type.

NOTE: The category pages using profiles created by **Category Page Builder** have only 2 layout types: 1 column and 1 column full width. This is because we support **Sidebar** element that you can add to the builder section when creating layout. In this case, layout options in category edit page will not work.

Layout Update XML [store view] = "true"/>

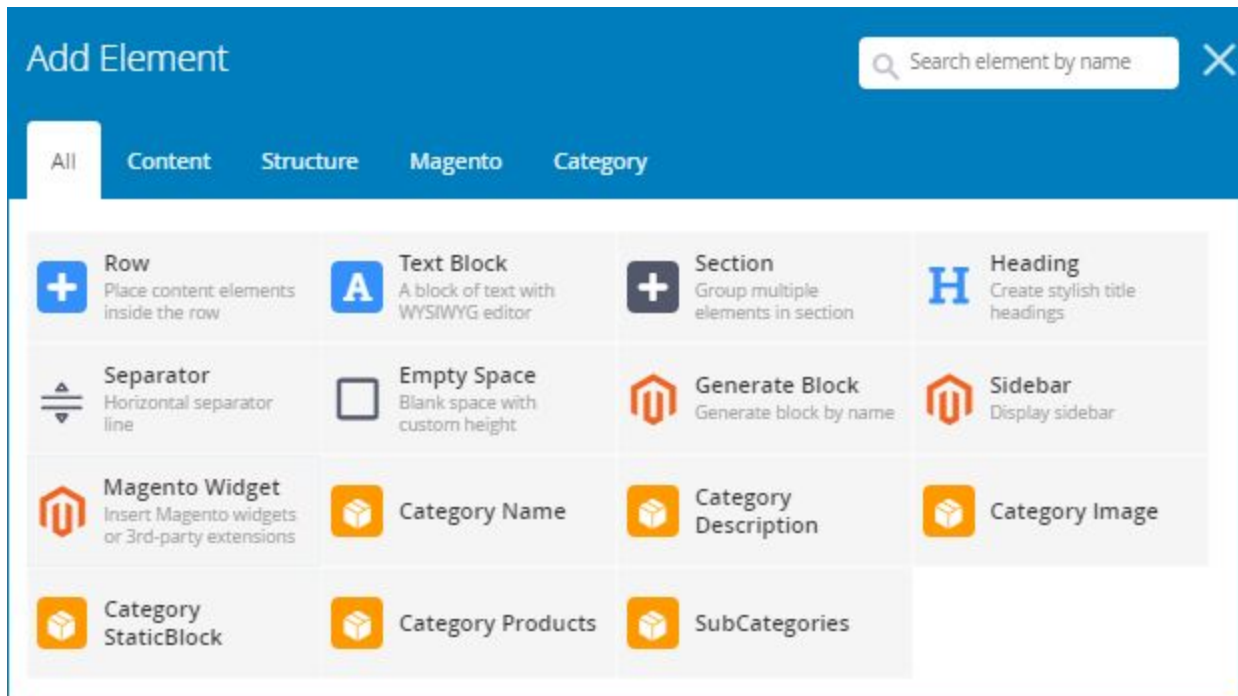

Layout options here don't work if category page uses layout profile created by Category Page Builder

2. Magezon Category Page Builder

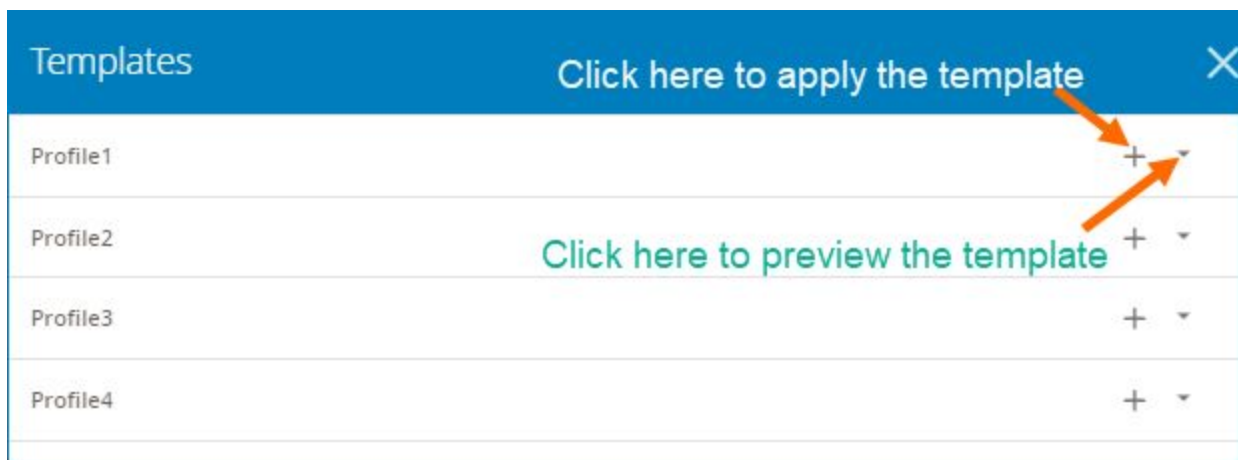

Where you create and customize layout for category pages using drag & drop interface.

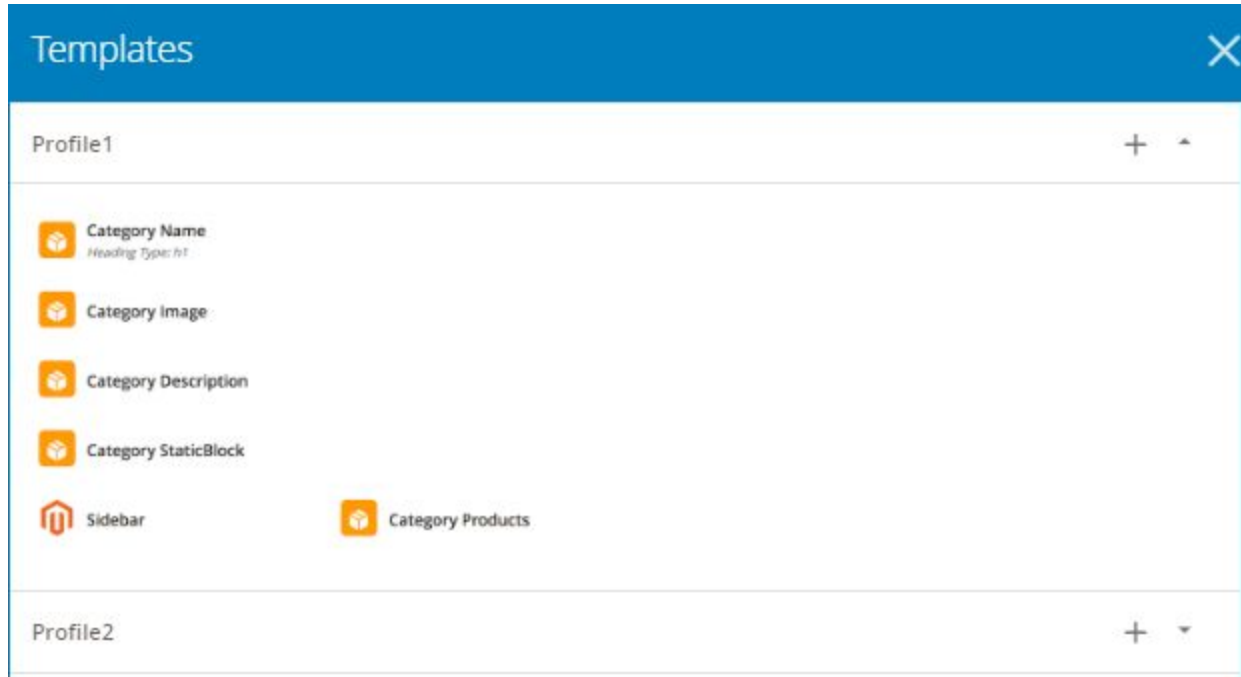

- Click the plus icon in the top bar to add elements from a popup:

- Click the icon next to plus icon to select a template. You'll see all templates in a popup:

- Click drop-down icon to preview a template, like this:

- Click plus icon to select the template. The selected template will be displayed in the builder section and you can customize it, like this:

Magezon Category Page Builder

 **Category Name**
Heading Type: h1

 **Category Image**

 **Category Description**

 **Category StaticBlock**

 **Sidebar**

 **Category Products**

3. Preview

When finishing, click **Save** button on the top right corner to save the profile. After saving, on the bar at the top of the page, you can see:

- **Delete** the profile.
- **Preview** how the layout looks on frontend. When clicking **Preview**, you will see a grid containing all categories of your website. Then in **Action** column, click **Preview** to preview how a category page is displayed in this layout.

Preview *This function allows you to preview how your profile looks on category page.* ✕

<input type="checkbox"/>	11	Men	Preview
<input type="checkbox"/>	12	Tops	Preview

Click here to preview layout profile (with arrow pointing to the 'Preview' link for ID 4)

IV) Apply Layout Profile to Category Pages

After creating a layout profile, you need to apply it to specific category pages. To do this, go to **Catalog > Inventory > Categories** and open a category.

In **Design** tab on the right, find **Category Page Builder Profile** and choose a profile from the drop-down. Remember to **Save** your change. Then click **View Category** next to **Save** button to view the category page.

6. Subcategories

Used to display subcategories of the main category.

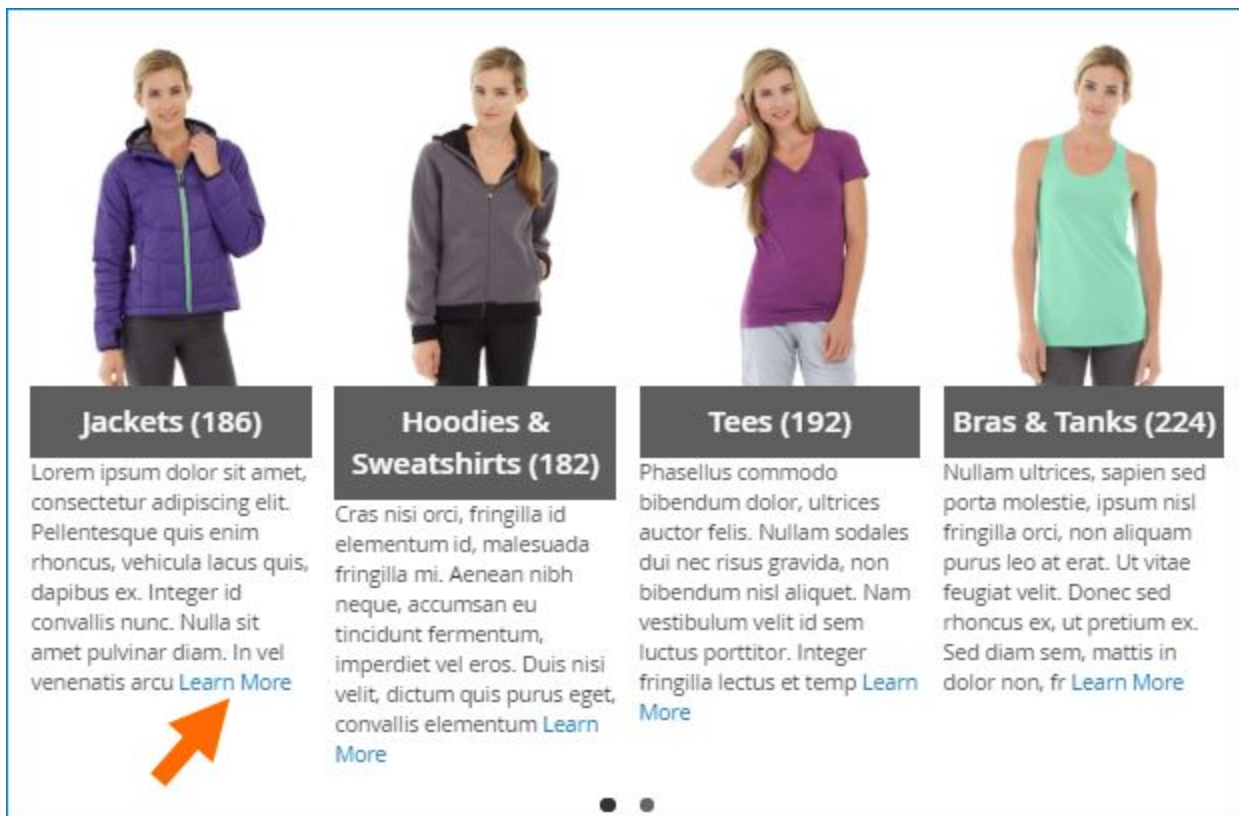

- **General** tab:

The screenshot shows the 'SubCategories Settings' dialog box with the 'General' tab selected. The dialog has a blue header with a close button (X) in the top right corner. Below the header are four tabs: 'General', 'Grid Options', 'Carousel Options', and 'Design Options'. The 'General' tab contains the following settings:

- Layout:** A dropdown menu set to 'Slider'.
- Display Style:** A dropdown menu set to 'None'.
- Category Name:** A toggle switch that is turned on.
- Category Product Count:** A toggle switch that is turned on.
- Category Image:** A toggle switch that is turned on.
- Image Width:** A text input field containing '100'.
- Image Height:** An empty text input field.
- Category Description:** A toggle switch that is turned on.
- Length:** A text input field containing '200'.
- Name Font Size:** A text input field containing '20'.
- Name Font Weight:** A text input field containing '400'.
- Name Background Color:** A color picker showing a dark gray color with the hex code 'rgba(0, 0, 0, 0.74)'.
- Name Color:** A color picker showing a light gray color with the hex code 'rgba(255, 255, 255, 1)'.

- **Layout:** choose from 3 layout types to display subcategories including Grid, List and Slider.
- **Display Style:** display subcategory layout in 3 styles: None, Style1 and Style2.
- Enable/Disable **Category Name**, **Category Product Count**, **Category Image** and **Category Description**.
- If **Category Image** is enabled, you can adjust **Image Width** & **Image Height** (px).
- If **Category Description** is enabled, you can limit the length of description displayed by entering character limit in **Length** field. If the description exceeds this character limit, **Learn More** link text will be added at the end that leads to subcategory page, like this:

- Enter **Name Font Size** (px) and **Name Font Weight** (px) of subcategories.
- Choose **Name Background Color** and **Name Color**.
- If you select **Style1** in **Display Style**, you can choose **Border Color** and **Hover Border Color** that surrounds each subcategory.

The image shows a 'SubCategories Settings' dialog box with a blue header and a close button (X) in the top right. Below the header are four tabs: 'General', 'Grid Options', 'Carousel Options', and 'Design Options'. The 'General' tab is selected. The settings are as follows:

Name Background Color	rgba(0, 0, 0, 0.74)	Name Color	rgba(255, 255, 255, 1)
Border Color	rgba(0, 125, 189, 1)	Hover Border Color	#ff9900

The 'Border Color' and 'Hover Border Color' fields are highlighted with an orange border.

- If **Style2** is selected, you can choose **Overlay Color** that overlays subcategories when hovering.

The image shows a 'SubCategories Settings' dialog box with a blue header and a close button (X) in the top right. Below the header are four tabs: 'General', 'Grid Options', 'Carousel Options', and 'Design Options'. The 'General' tab is selected. The settings are as follows:

Name Font Size	20	Name Font Weight	400
Name Background Color	rgba(0, 0, 0, 0.74)	Name Color	rgba(255, 255, 255, 1)
Overlay Color	rgba(69, 247, 149, 0.5)		

The 'Overlay Color' field is highlighted with an orange border.

- **Grid Options** tab (for **Grid** type only): In this tab, you can decide the number of columns in the grid for Desktop, Tablet Landscape, Tablet Portrait, Mobile Landscape and Mobile Portrait separately.

The screenshot shows a dialog box titled "SubCategories Settings" with a close button (X) in the top right corner. The dialog has four tabs: "General", "Grid Options", "Carousel Options", and "Design Options". The "Grid Options" tab is selected and active. It contains five sections, each with a dropdown menu for the number of columns and a range of screen widths:

Device Type	Number of Columns	Screen Width Range
Desktop	4 columns	> 1200px
Tablet Landscape	3 columns	992px - 1199px
Tablet Portrait	3 columns	768px - 991px
Mobile Landscape	2 columns	576px - 767px
Mobile Portrait	2 columns	< 576px

- **Carousel Options** tab is used for **Slider** type only.

>> **Sidebar** element on frontend:

The screenshot shows a category page for clothing. On the left is a sidebar with various filter categories, each with a dropdown arrow:

- CATEGORY
- STYLE
- STYLE
- SIZE
- CLIMATE
- COLOR
- ECO COLLECTION
- ERIN RECOMMEN DS
- MATERIAL
- NEW
- PATTERN
- PERFORMANCE FA BRIC
- PRICE
- SALE

Below the filters are sections for "Compare Products" (stating "You have no items to compare.") and "My Wish List" (stating "You have no items in your wish list.>").

The main content area features a grid of product cards. At the top, there are three large image banners with category counts:

- Jackets (186)
- Hoodies & Sweatshirts (182)
- Tees (192)

Below these banners is a "Sort By" dropdown menu set to "Position".

The product grid displays three items:

- Sahara Leggings**: As low as \$60.00, 2 reviews. Color options: blue, grey, red.
- Cora Parachute Pant**: As low as \$60.00, 4 reviews. Color options: black, blue, white.
- Ida Workout Parachute Pant**: As low as \$38.40, 3 reviews. Color options: black, blue, pink.

At the bottom right of the grid, there is a page number "104.24".

VI) Support

If you have any questions or need any support, feel free to contact us via the following ways. We will get back to you within 24 hours since you submit your support request.

- Submit [contact form](#).
