I) Introduction

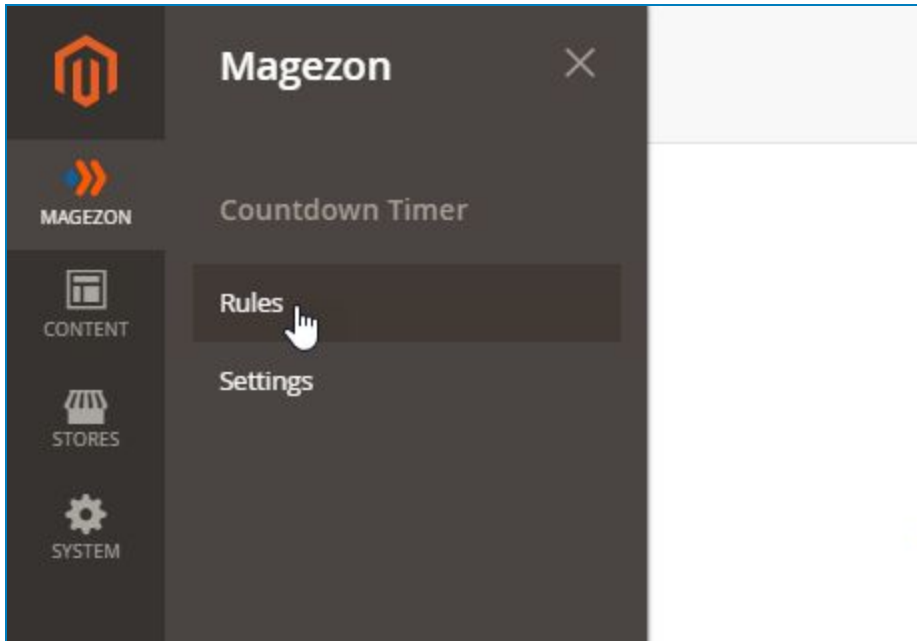

This document is the User Guide for Countdown Timer Extension. It provides extension functionality and introduces some tips for a quick start.

Countdown Timer extension for Magento 2 is a powerful tool to boost sales and restrict the decision-making process of customers when purchasing. It provides a technique to set time for any campaign of your eCommerce store.

- Create multiple countdown time for any products
- Ability to display Countdown Timer for a specific group of customers
- Enable to locate the countdown on the product page
- Support CSS to customize the countdown timer
- Ability to schedule countdown time
- Add countdown timer for multiple products and store pages
- Assign products via conditions
- 10 stunning countdown templates
- Compatible with Single Product Page Builder
- Ability to work with the widget
- Enable to configure the timer to display
- Easy to use and install
- Easy to custom clock color and type
- Fully responsive design

II) Where to Find Extension

After downloading and installing the extension, from the backend navigate **Magezon > Countdown Timer > Rules** where you can find all created countdowns and create a new one:

III) How to Use

To create a countdown, below are the guidelines for you to control it.

We already created some Countdowns which are listed below with detailed information such as ID, Title, Customer Groups, etc. Click **“Add New Rule”** to add a new countdown.

1. Rules

1.1 General

To make the countdown clock visible on Frontend, in **Enable** select “**Yes**”.

Then, configure all the settings for the Countdown Timer in this tab.

- **Title:** Enter the name of the campaign.
- **Store View:** Set the store view for your campaign.
- **Customer Groups:** Choose the group of customers that countdown will be visible.
- **Show Product List Page:** Select “Yes” if you want to show Countdown Timer on the Product List page such as home page, compare page, slide bar, product detail page, etc.
- **Position on Product Page:** Choose the position displayed for the countdown clock
- **Start Time:** Set the start time for the countdown clock.
- **End Time:** Set the end time for the countdown clock.
- **Exclude Day of Week:** Choose specific days of the week that you don't want to run the countdown clock.
- **Link:** Insert link to the product page with the same campaign or your page you want to navigate to.
- **Sort Order:** specify countdown timer position if there are several widgets in the same block. Here 0 is the first position.

1.2 Layout

You can set up and design the countdown timer:

- **Date Format:** Select the format of the countdown timer (eg. DD:HH:MM:SS, HH:MM:SS, etc.).
- **Text Before Clock:** Enter the text before the countdown clock.
- **Text After Clock:** Enter the text after the countdown clock.
- **Class CSS:** Name the class that you want to customize (eg: body-left).
- **Custom CSS:** Add all CSS you want to use to customize the class.

```
.body-left{  
    color: red;  
    font-family: "Playfair Display",georgia,serif;  
}
```

- **Template:** Choose the type of countdown timer.

- **Day Color (Circles, Circles Tick):** Set the color of the day circle.
- **Hours Color (Circles, Circles Tick):** Set the color of the hour circle.
- **Minutes Color (Circles, Circles Tick):** Set the color of the minute circle.
- **Seconds Color (Circles, Circles Tick):** Set the color of the second circle.

1.3 Conditions

You can apply a rule to set conditions to display the countdown on your product page by using various product attributes such as SKU, Quantity, etc.

Conditions

Apply the rule only if the following conditions are met (leave blank for all products).

If ALL of these conditions are TRUE :

Please choose a condition to add. 

- Please choose a condition to add.
- Conditions Combination
- Product Attribute**
 - Activity
 - Attribute Set

2. Configuration

- To enable this module, navigate to **Stores > Configuration**, then select “**Yes**” on the **General** tab.

The screenshot shows the Magento Configuration interface for the Countdown Timer module. At the top, the title "Configuration" is displayed, along with a user profile icon labeled "demo". Below the title, there is a "Scope" dropdown menu set to "Default Config" and a "Save Config" button. The main content area is divided into two sections: "MAGEZON EXTENSIONS" and "General". Under "MAGEZON EXTENSIONS", the "Countdown Timer" module is listed. In the "General" tab, the "Current Version" is shown as "1.0.0" with a "[store view]" link. Below it, the "Enable" setting is set to "Yes", also with a "[store view]" link.
