I) Introduction

Image Gallery for Magento 2 is a smart tool to make your online store more aesthetic and visually appealing. It allows store owners to bulk upload and display unlimited product images/videos in the gallery with ease. The admins can also create and manage albums by categories and tags as well as show them on relevant product pages.

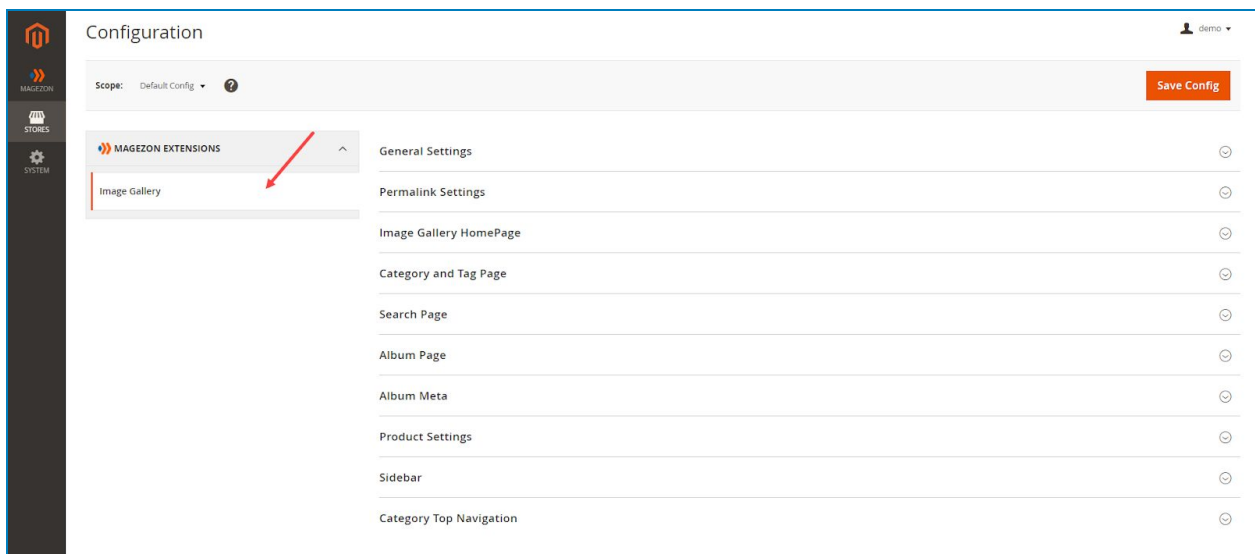

- Visual drag & drop image gallery builder
- Bulk upload images at once
- Show images/videos with appealing effects
- Multiple upload options
- Display albums on product pages
- Group albums by categories and tags
- Display albums in attractive layouts
- SEO-friendly
- Support multiple stores and languages
- Fully responsive design
- Compatible with Page Builder, Blog Extension, and Single Product Page Builder

II) Configuration

After installing the extension, navigate to **Stores > Settings > Configuration**:

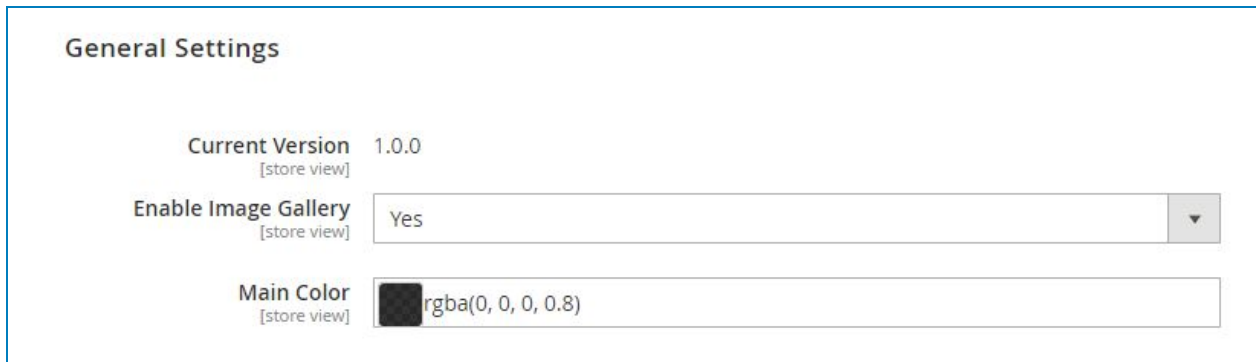

In the left admin panel, span **Magezon Extensions** and click to **Image Gallery**. The interface will look like below:

1. General Settings

In the **General Settings** section on the right-hand side, you can see the **Current Version** of the extension.

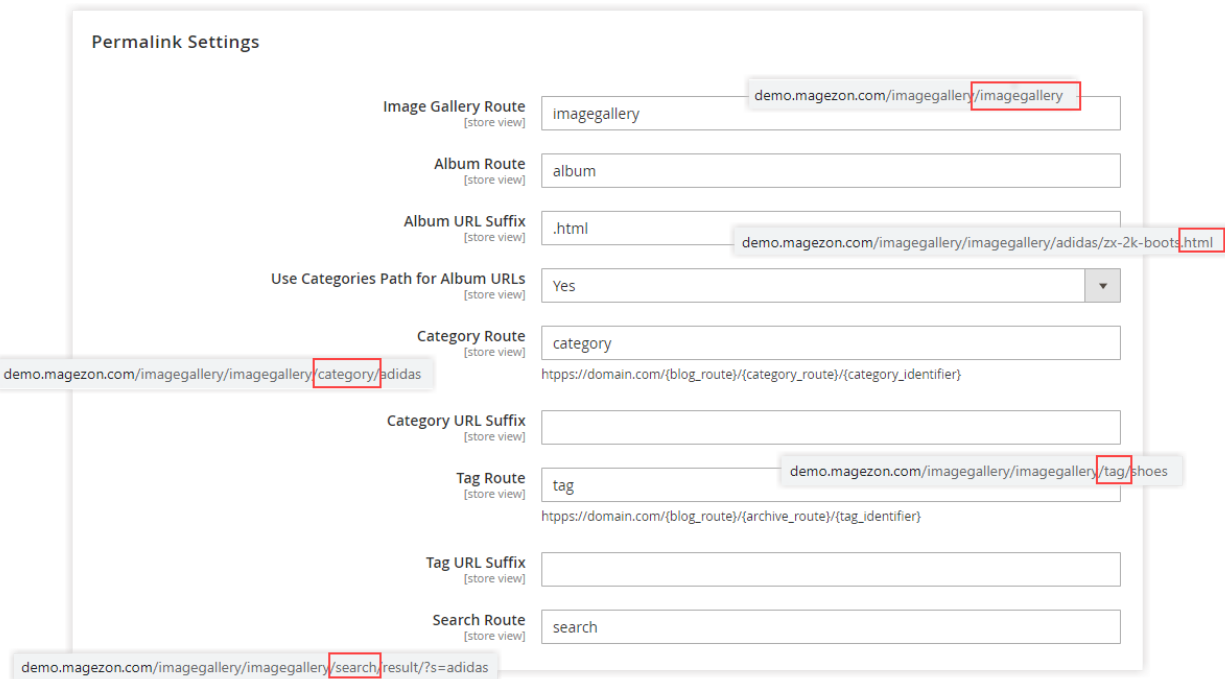

The screenshot shows the 'General Settings' section for the Image Gallery extension. It contains three settings:

- Current Version** [store view]: 1.0.0
- Enable Image Gallery** [store view]: Yes (dropdown menu)
- Main Color** [store view]: rgba(0, 0, 0, 0.8) (color picker)

- **Enable Image Gallery:** Choose Yes/No to enable/disable the extension.
- **Main color:** Set a main color that you can see when hovering over the album image.

2. Permalink Settings

- **Save & Close** button in the **Save** drop-down to save the album information and go back to the album grid page.
- Click the **Back** button to go back the album grid page.
- Click the **Delete** button to delete the album.
- Click the **View Album** button to view the album on the frontend.

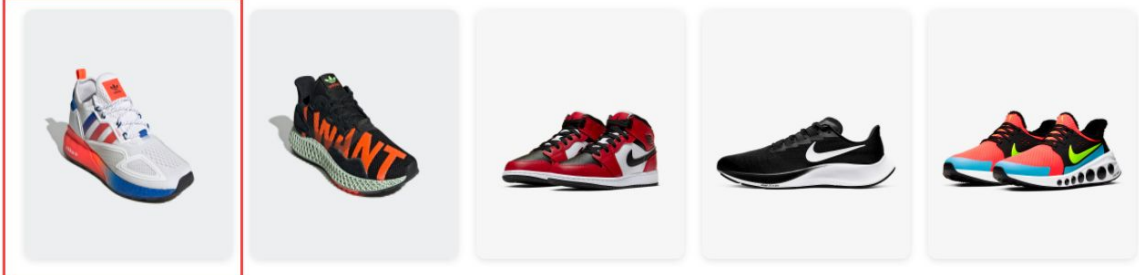

The album will display on the product page like this:

Details More Information Reviews

Luma presents an innovative power vinyasa yoga class for intermediate and advanced practitioners. The video allows you to pace yourself, but more intense work yields longer rest. This class is great for more advanced students looking to learn proper alignment in their yoga practice.

- Includes a breakdown of 12 different postures.
- Chataranga Dandasana and prayer twist.
- Challenging posture (side crow).
- 55 minutes of movement.

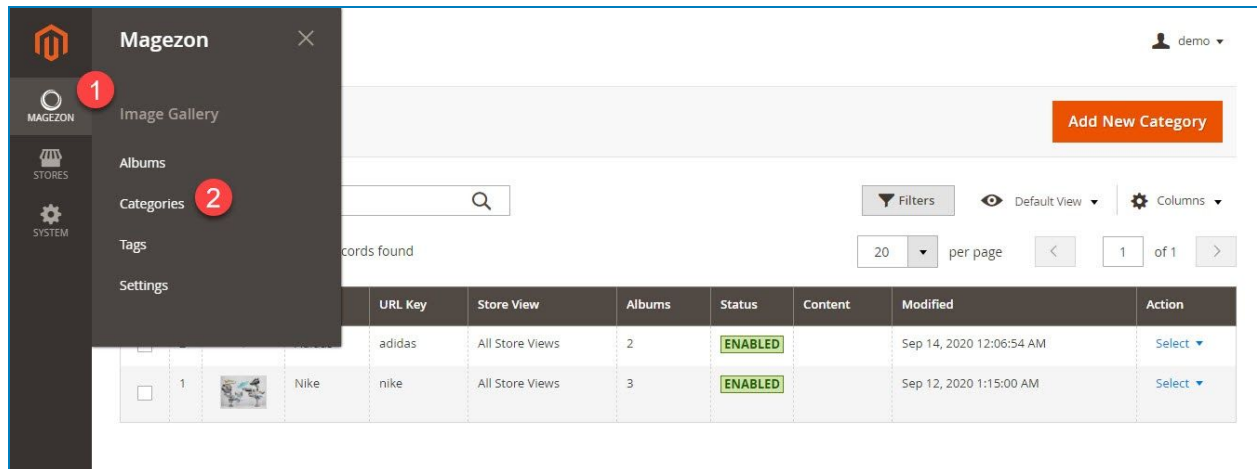

Product Album

IV) Add New Category

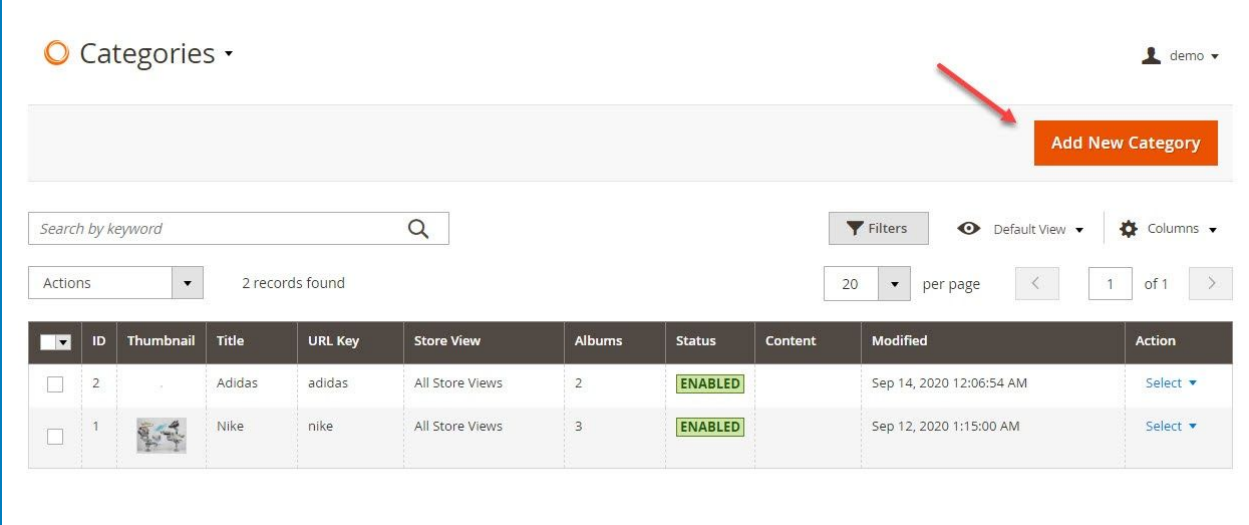

Image Gallery allows you to create categories to group albums for easy management.

From the admin panel, navigate to **Magezon > Image Gallery > Categories**.

- You'll see a grid containing all created categories. The grid includes **ID** of category, its **Thumbnail**, **Title** of category, **URL Key** of Category page, **Albums** - the number of albums is included in the category, **Store Views**, **Status** of category, **Modified**, **Actions** - where to **edit** or **delete** categories, etc.
- Click **Columns** drop-down if you want to display more information in the grid.

- After that, click **“Add New Category”** button to create a new category:

V) Add New Tag

From the admin panel, navigate to **Magezon > Image Gallery > Tags**:

- You'll see a grid containing all created tags. The grid includes **ID** of tag, its **Title**, **Albums**
- the number of albums is included in the tag, **Status** of tag, **Modified**, **Actions** - where to **edit** or **delete** tags, etc.
- Click **Columns** drop-down if you want to display more information in the grid.
- After that, click **"Add New Tag"** button to create a new tag:

VI) Import Albums

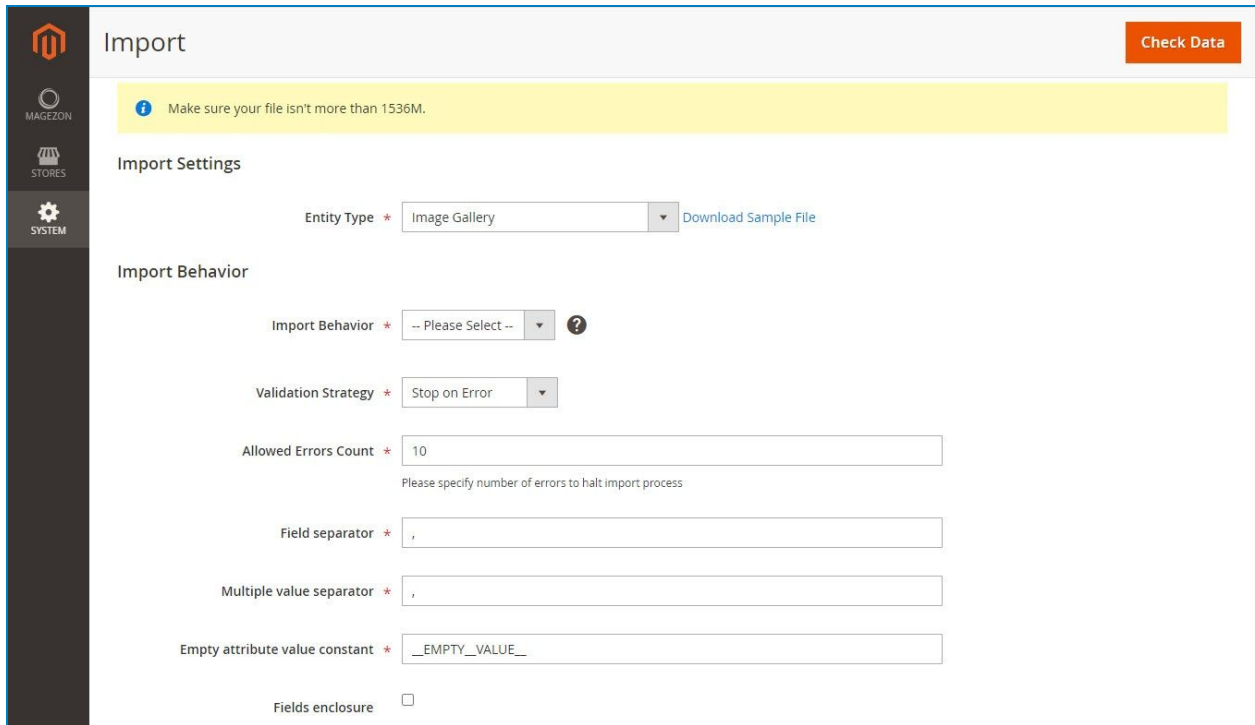

With our extension, you can import albums in bulk via CSV files.

NOTE: You can import albums from your gallery only.

Go to **System > Data Transfer > Import**

This import function of **Image Gallery** extension is developed based on the [import](#) function of [Magento](#).

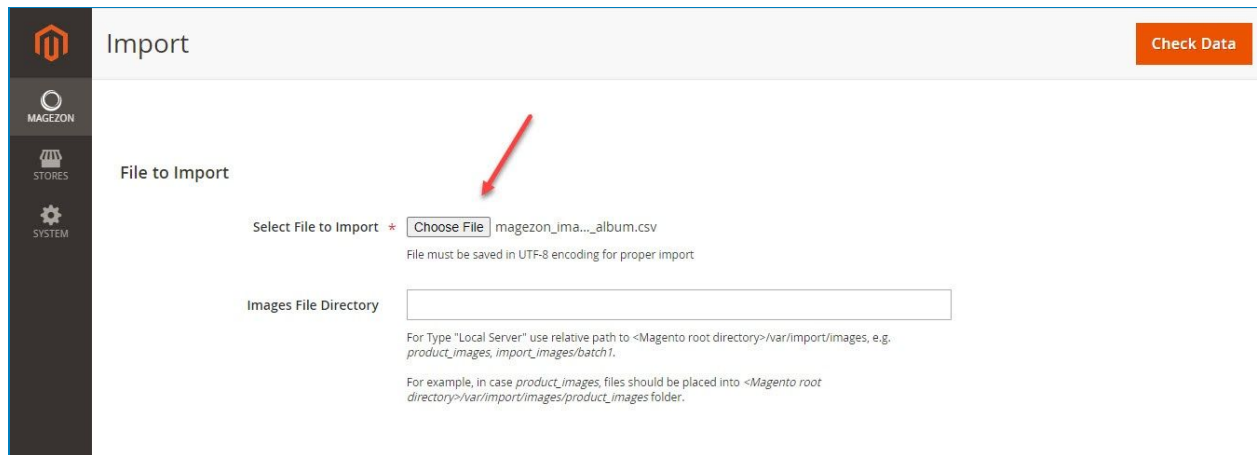

Set the **Entity Type** to **Image Gallery**.

Click **Download Sample File** to download an import sample file, and fill album info in the file:

	A	B	C	D	E	F	G	H	I	J	K
1	album_id	identifier	title	description	gallery	lightbox	layout_type	created_at	category_id	store_id	
2	1	adidas	adidas	new collection	image1.png,image2.png	magnific popup	list	1/9/2020	1,2	3,4	
3	2	nike	nike	Nike Joyride Dual Run	nike1.png	light	grid	2/9/2020	2	1,2	
4	3	fila	fila	Fila Men's Strada Disruptor	fila3.png,fila4.png	fancy box	grid	3/9/2020	1	1	
5	4	puma	puma	puma smash v2	puma1.png	fancy box	masonry	4/9/2020	1	2	
6											

Set Add/Update, Replace or Delete in **Import Behavior**.

Then upload the updated file again by clicking the **Choose File** button.

After finishing the settings, click **Check Data**. Then hit the **Import** button to import album data:

Once you've finished importing albums, the album grid will be updated.

VII) Support

If you have any questions or need any support, feel free to contact us by following ways. We will get back to you within 24 hours since you submit your support request.

- Submit [contact form](#).
