I) Introduction

This document is the User Guide for Magento 2 Magezon Page Builder. It describes the extension functionality and provides some tips for a quick start.

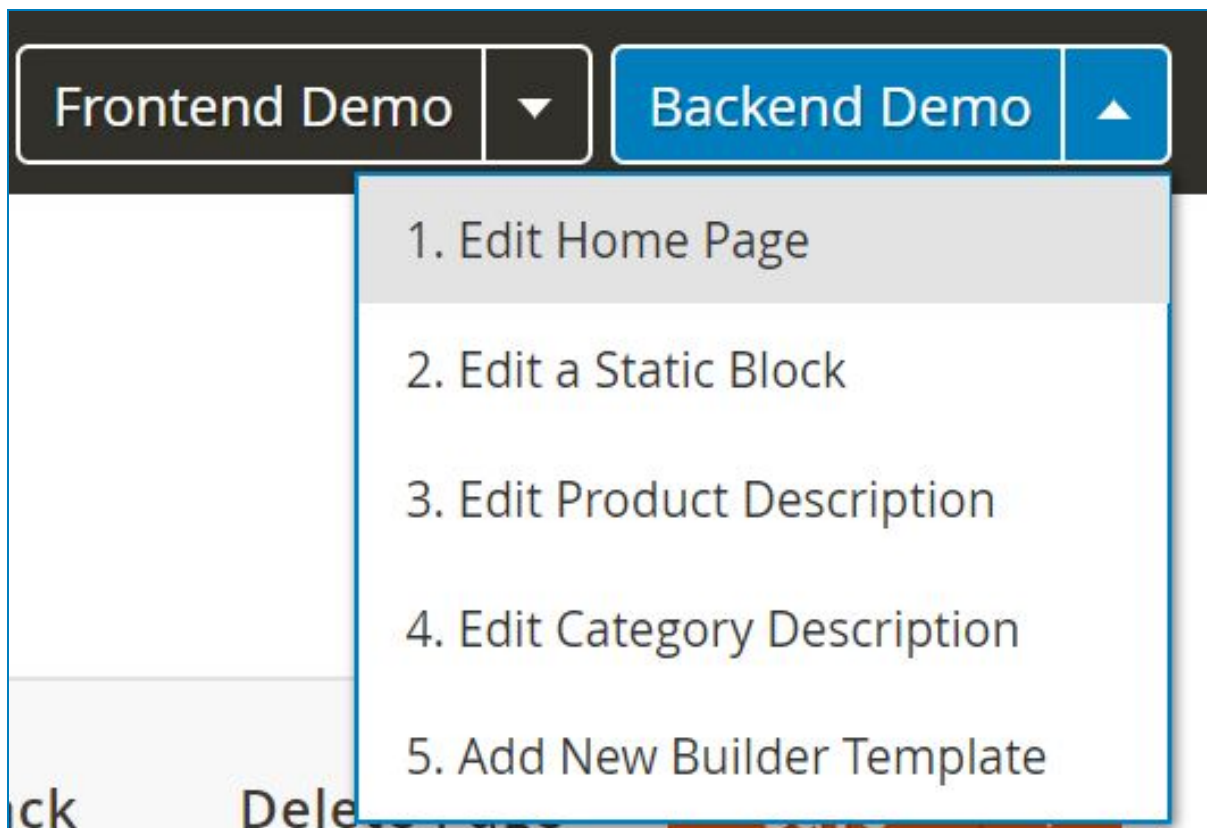

Magento 2 Magezon Page Builder is a better and easier way you can do to create your e-Commerce websites. A much less complicated way that couldn't be imagined before.

In this guide, we'll give you an overview of Magezon page builder's specific elements as the core ones are described in this [detailed instruction](#).

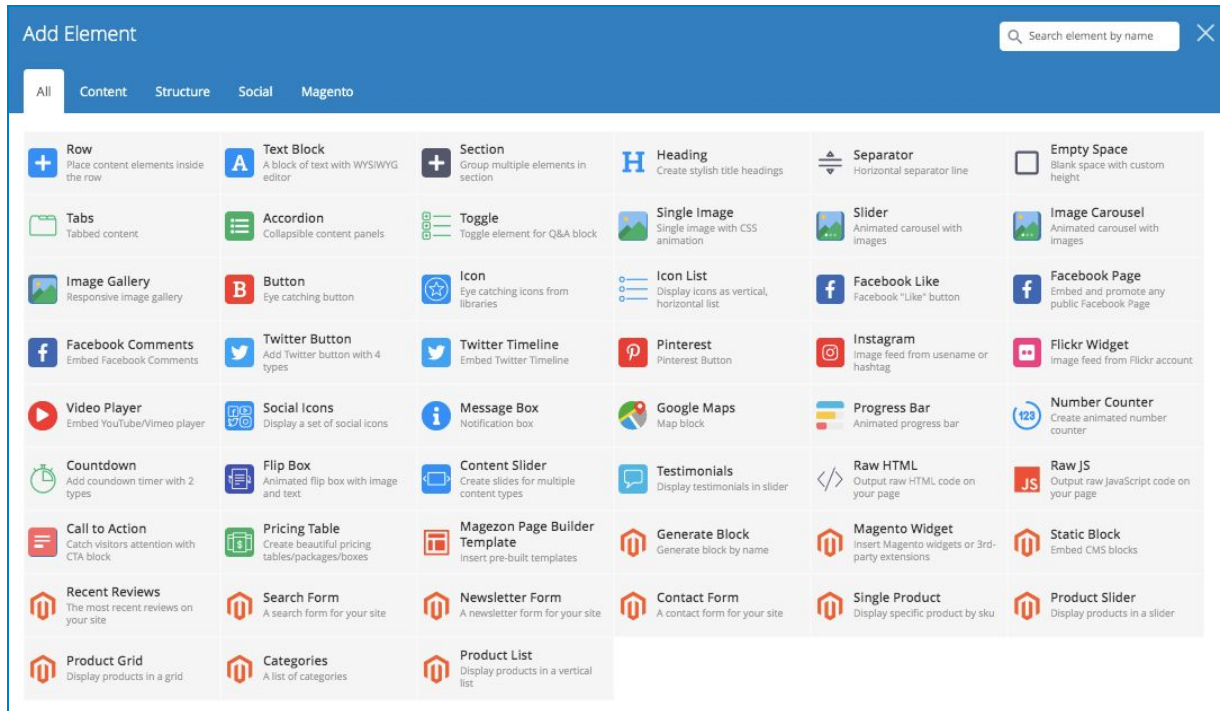

II) Element list

To go on our builder interface, click on the backend demo then choose the page or block you want to edit.

- Home Page
- Static Block
- Product Description
- Category Description

The Element grid will appear after clicking on the plus button of the builder. Our Element Grid will look like this with 9 core elements and 42 additional ones which will be listed as following.

III, Product

1 Product Slider

1.1 Condition Tab

We choose Home Page builder as default builder and will talk about the additional elements in this page.

The screenshot shows the 'Home Page' configuration interface in the Magezon Page Builder. At the top, there's a header with 'Home Page' on the left and navigation links '← Back' and 'D' on the right. Below the header, there's a section for 'Enable Page' with a toggle switch set to 'Yes'. Underneath, there's a 'Page Title' field with a red asterisk and the text 'Home Page'. The 'Content' section follows, with a 'Content Heading' field also containing 'Home Page'. Below the content fields, there's a blue button labeled 'Disable Magezon Page Builder'. At the bottom, there's a blue toolbar with icons for a circle, a plus sign, a square, and a refresh symbol. Below the toolbar, there's a row of six grid layout icons (1x1, 2x2, 3x3, 4x4, 5x5, 6x6) and a large 'A' icon.

First, it comes to the Condition Tab of Product Slider
Set the product source and the order.

This case we choose the Latest Product **Source**

The image shows the 'Product Slider Settings' dialog box with the 'Condition' tab selected. The 'Source' dropdown menu is open, displaying a list of options: Latest (checked), New Arrival, Best Sellers, On Sale, Most Viewed, Wishlist Top, Top Rated, Featured, and Free.

Choose Alphabetically **Order By**

The image shows the 'Product Slider Settings' dialog box with the 'Condition' tab selected. The 'Source' dropdown menu is closed and shows 'Latest'. The 'Order By' dropdown menu is open, displaying a list of options: Default, Alphabetically (checked), Price: Low to High, Price: High to Low, Random, Newest First, and Oldest First.

1.2 Carousel Options Tab

Set the configure of the **Carousel Options** Tab like this.

There's several On - Off buttons (**Loop, Center, Right to Left, Auto Height, Mouse Drag, Touch Drag, Pull Drag, Number items per Column**) that can be easily set and see right from the back and. Don't forget to set the **Colors** of **Text Color** and **Background Color** when they are in **Normal, Hover or Active** status.

Then, hit the blue **Save** button and the orange **Save** button on the top right of the builder.

2. Product List

2.1 General Tab

In the general Tab, fill in the **Widget Title** and **Widget Description**.

Set the **Title Alignment** and **Title Tag** to fit your design.

Decide whether to **Show Line** or not.

The image shows a 'Product List Settings' dialog box with a blue header and a close button (X) in the top right corner. Below the header are four tabs: 'General' (selected), 'Condition', 'Product Options', and 'Design Options'. The 'General' tab contains two red-bordered sections. The first section, labeled 'Widget Title', has a text input field containing 'Product List'. Below this are three controls: 'Title Alignment' (a dropdown menu set to 'Center'), 'Title Tag' (a dropdown menu set to 'Heading 2'), and 'Show Line' (a toggle switch that is currently turned on). The second red-bordered section, labeled 'Widget Description', has a text area containing 'On sale'.

Case no.1: Set up the images from the media library

In the General tab:

- Fill in the **Title**
- Choose the **Image Source** and set the Images

Like this

The image shows a 'Single Image Settings' dialog box with a blue header and a close button (X) in the top right corner. Below the header are two tabs: 'General' (selected) and 'Design Options'. Under the 'General' tab, there are three sections: 'Title' with a text input field containing 'Cover & Pop up'; 'Image Source' with a dropdown menu showing 'Media library'; and two image preview sections. The 'Image' section shows a collage of various small images, and the 'Popup Image' section shows a larger image of a person sitting at a desk.
