I) Introduction

With **Product Attachments for Magento 2**, it's never been easier to attach additional files on the product pages so that customers can view and download to better understand your products. This will help increase the chance of customers purchasing your products and improve post-purchase experience.

- Display attachments on product pages
- Display attachments on order view page & confirmation email
- 2 ways to upload files
- Attach unlimited files of various formats
- Display icons matching each attachment type
- Group attachments by category
- View report on attachment downloads
- Bulk import attachments via CSV
- Compatible with Single Product Page Builder

II) Where to Find Extension

After installing the extension, navigate to **Stores > Settings > Configuration**:

or Magezon > Product Attachments > Settings:
