1) Introduction

This document is the User Guide for **Product Page PDF Builder Extension for Magento 2**. It will help you understand the extension functionality and learn how to use it.

Magento 2 Product Page PDF Builder Extension allows your customers to directly view, download and print out your own ready-made PDF version of the product page. It's super convenient to save and view offline for future reference.

List of features:

- ❖ Conveniently view and download the PDF version of the product page
- ❖ 10+ stunning the product PDF templates
- ❖ Easily customizable layouts and design
- ❖ Intuitive drag and drop PDF builder
- ❖ 20+ elements supported
- ❖ Applied to all Magento 2 types of products
- ❖ Live preview mode on the backend
- ❖ Other useful features

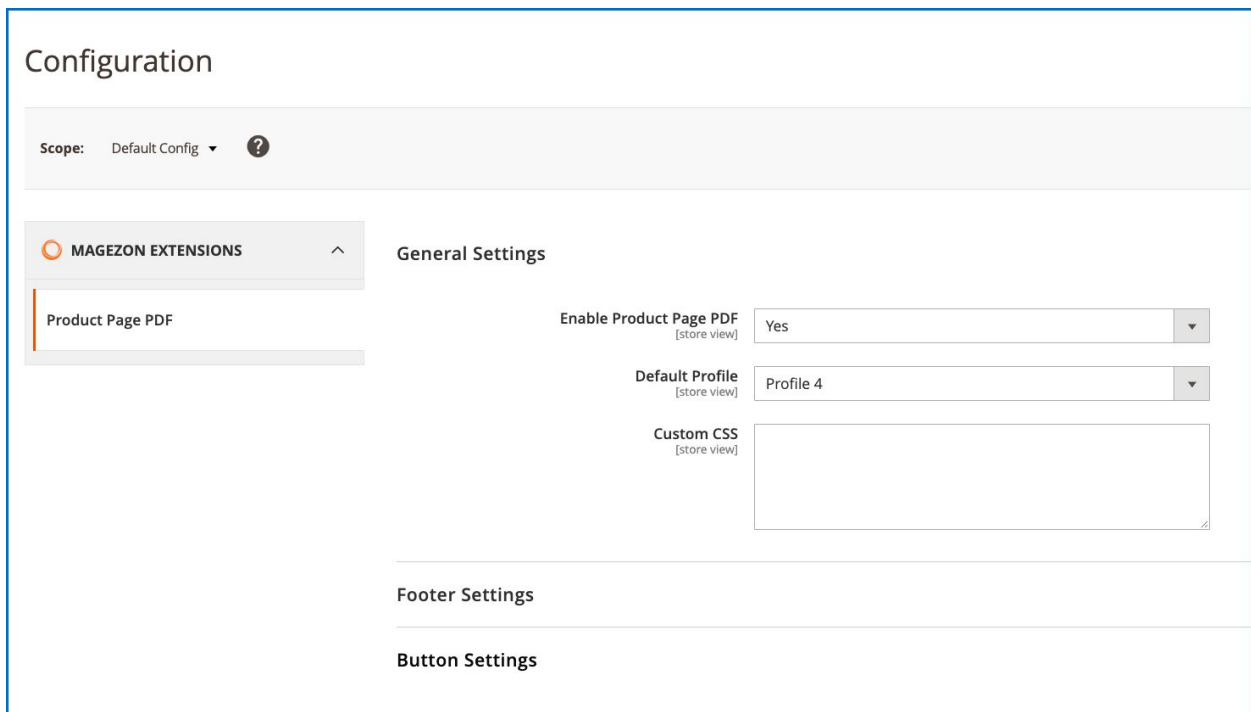

Product Page PDF Builder is developed on a core builder based on which we've built all builder extensions. The core builder includes elements and settings that all builder extensions have in common. For details, please refer to:

https://magezon.com/pub/media/productfile/magezon-core-builder-user_guides.pdf.

In this guide, we'll focus on elements and settings that are specific to the **Product Page PDF Builder Extension**.

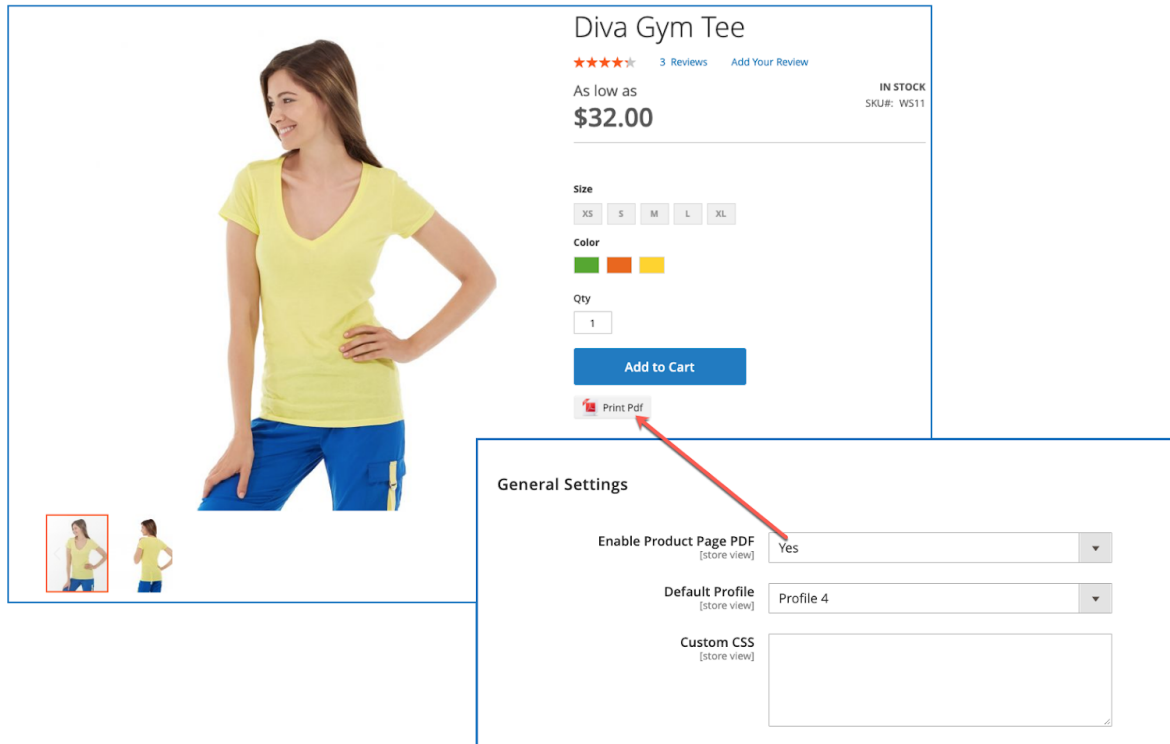

II) Configuration

Before creating a product page PDF layout, you need to configure General Settings of this layout. Navigate to **Store > Configuration > Product Page PDF**. You will be redirected to:

The screenshot shows the 'Configuration' page for 'Product Page PDF'. At the top, the 'Scope' is set to 'Default Config'. A sidebar on the left lists 'MAGEZON EXTENSIONS' with 'Product Page PDF' selected. The main content area is divided into sections: 'General Settings', 'Footer Settings', and 'Button Settings'. Under 'General Settings', there are three fields: 'Enable Product Page PDF' (set to 'Yes'), 'Default Profile' (set to 'Profile 4'), and 'Custom CSS' (an empty text area).

1. General Settings

The image shows a product page for 'Diva Gym Tee' with a price of \$32.00. Below the product image, there are size and color selection options. A red arrow points from the 'Print Pdf' button on the product page to the 'Enable Product Page PDF' setting in the 'General Settings' panel, which is currently set to 'Yes'.

- **Enable Product Page PDF:** Choose **Yes** if you want to display the PDF on the product page.

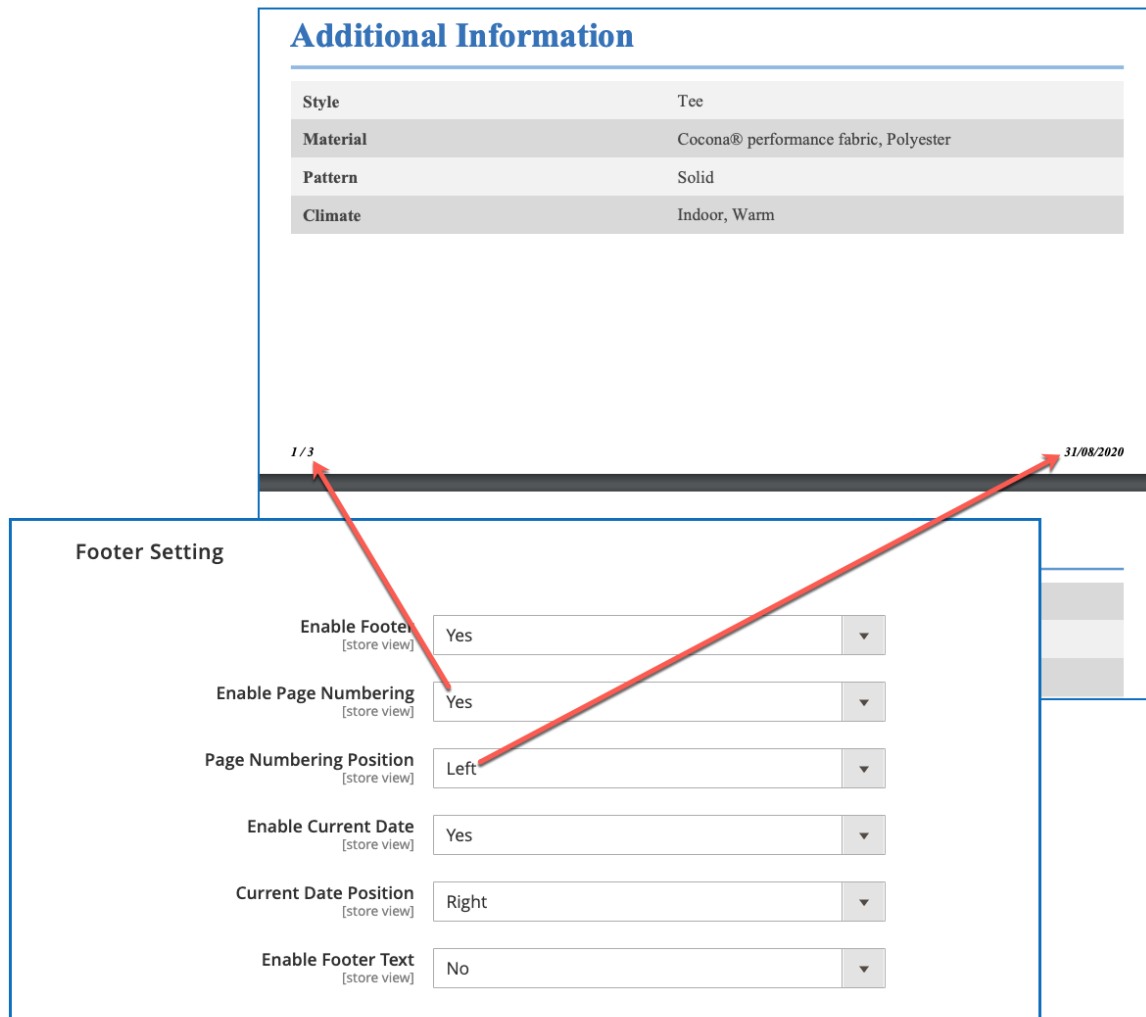

- **Default Profiles:** Choose the default profile you want to apply.

Note: If you choose the default profile, the following options will not be applied:

- **Enable Product Page PDF:** The PDF will be on display even when you choose **No** to disable Product Page PDF.
- **From/To Date:** Even if you set the period of time during which the profile is displayed, the profile will be displayed beyond that period.
- **Condition:** Although you set conditions to some certain products, the profile will be applied to all the products.

- **Custom CSS:** Add custom CSS to style the PDF button the way you want

2. Footer Setting

Additional Information

Style	Tee
Material	Cocona® performance fabric, Polyester
Pattern	Solid
Climate	Indoor, Warm

1 / 3 31/08/2020

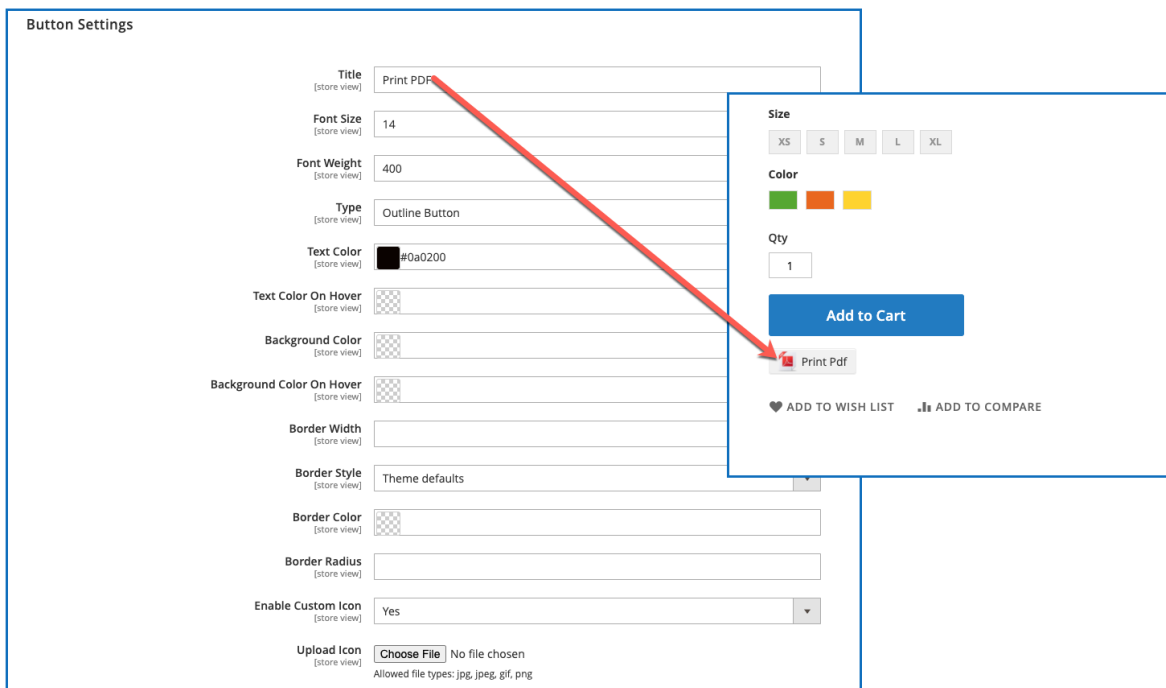

Footer Setting

- Enable Footer [store view] Yes
- Enable Page Numbering [store view] Yes
- Page Numbering Position [store view] Left
- Enable Current Date [store view] Yes
- Current Date Position [store view] Right
- Enable Footer Text [store view] No

- **Enable Footer:** Choose **Yes** to enable **Footer** on the PDF
- **Enable Page Numbering:** Choose **Yes** to display **Page Numbering** on the PDF
- **Page Numbering Position:** Select the position of **Page Numbering** in the footer (**Left, Right, Center**)
- **Enable Current Date:** Choose **Yes** to display **Current Date** on the PDF

- **Current Date Position:** Select the position of **Current Date**
- **Enable Footer Text:** Choose **Yes/No** to enable/disable the footer text.
- **Text for Footer:** If choose **Yes** on **Enable Footer Text**, this field will show up.
Type your wanted texts on **Text for Footer**.

3. Button Settings

The image shows a 'Button Settings' configuration panel on the left and a preview of the button on the right. A red arrow points from the 'Title' field in the settings to the 'Print Pdf' button in the preview.

Button Settings:

- Title (store view): Print PDF
- Font Size (store view): 14
- Font Weight (store view): 400
- Type (store view): Outline Button
- Text Color (store view): #0a0200
- Text Color On Hover (store view): [Color swatch]
- Background Color (store view): [Color swatch]
- Background Color On Hover (store view): [Color swatch]
- Border Width (store view): [Input field]
- Border Style (store view): Theme defaults
- Border Color (store view): [Color swatch]
- Border Radius (store view): [Input field]
- Enable Custom Icon (store view): Yes
- Upload Icon (store view): [Choose File] No file chosen
Allowed file types: jpg, jpeg, gif, png

Button Preview:

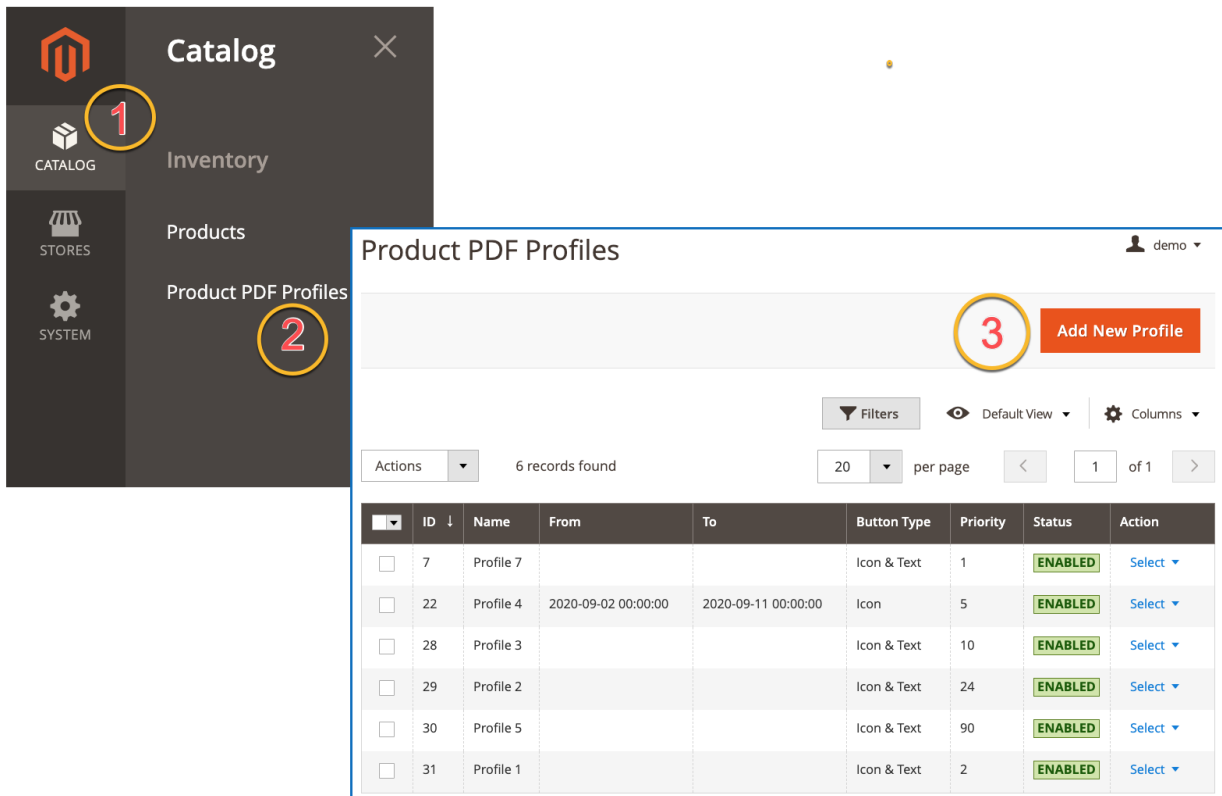

- Size: XS, S, M, L, XL
- Color: [Green], [Orange], [Yellow]
- Qty: 1
- Buttons: Add to Cart, Print Pdf, ADD TO WISH LIST, ADD TO COMPARE

- **Title:** Enter the title of the PDF button. If you don't, the default title **“Print PDF”** will be applied
- **Font Size:** Enter the font size for the text of the PDF button title
- **Font Weight:** Enter the boldness or thickness of the font
- **Type:**
 - Default
 - Modern Button
 - Flat Button
 - 3D Button

- Gradient Button
- Outline Button
- **Text Color:** Choose the color for the text of the title
- **Text Color On Hover:** Choose the color when hovering over the PDF button
- **Background Color:** Select the color for the PDF button background
- **Background Color on Hover:** Set the background color for the PDF button when hovering over it.
- **Border Width:** Set the width of the four borders
- **Border Style:**
 - Default
 - Solid
 - Dashes
 - None
 - Hidden
 - Double
- **Border Color:** Set the color for the PDF button border
- **Border Radius:** Set the rounded corners of the PDF button's outer border edge.
- **Enable Custom Icon:** Choose **Yes/No** to enable/disable uploading the custom icon.
- **Upload Icon:** Click **Choose File** to upload the wanted icon image (**Only jpg, jpeg, gif, png are allowed**)

III) Create a product page PDF profile

To create a profile, navigate to **Catalog > Product PDF Profile** on the left of the Admin panel. Then, click **Add New Profile**.

The screenshot shows the Admin panel interface. On the left, the 'Catalog' menu is expanded, with 'Product PDF Profiles' selected. A red circle '1' highlights the 'Catalog' menu item, and a red circle '2' highlights the 'Product PDF Profiles' menu item. The main content area shows the 'Product PDF Profiles' page. A red circle '3' highlights the 'Add New Profile' button. Below the button, there are filters, a table with 6 records, and pagination controls.

<input type="checkbox"/>	ID ↓	Name	From	To	Button Type	Priority	Status	Action
<input type="checkbox"/>	7	Profile 7			Icon & Text	1	ENABLED	Select ▾
<input type="checkbox"/>	22	Profile 4	2020-09-02 00:00:00	2020-09-11 00:00:00	Icon	5	ENABLED	Select ▾
<input type="checkbox"/>	28	Profile 3			Icon & Text	10	ENABLED	Select ▾
<input type="checkbox"/>	29	Profile 2			Icon & Text	24	ENABLED	Select ▾
<input type="checkbox"/>	30	Profile 5			Icon & Text	90	ENABLED	Select ▾
<input type="checkbox"/>	31	Profile 1			Icon & Text	2	ENABLED	Select ▾

And you will be redirected to:

New Profile ▾ demo ▾

General ⌵

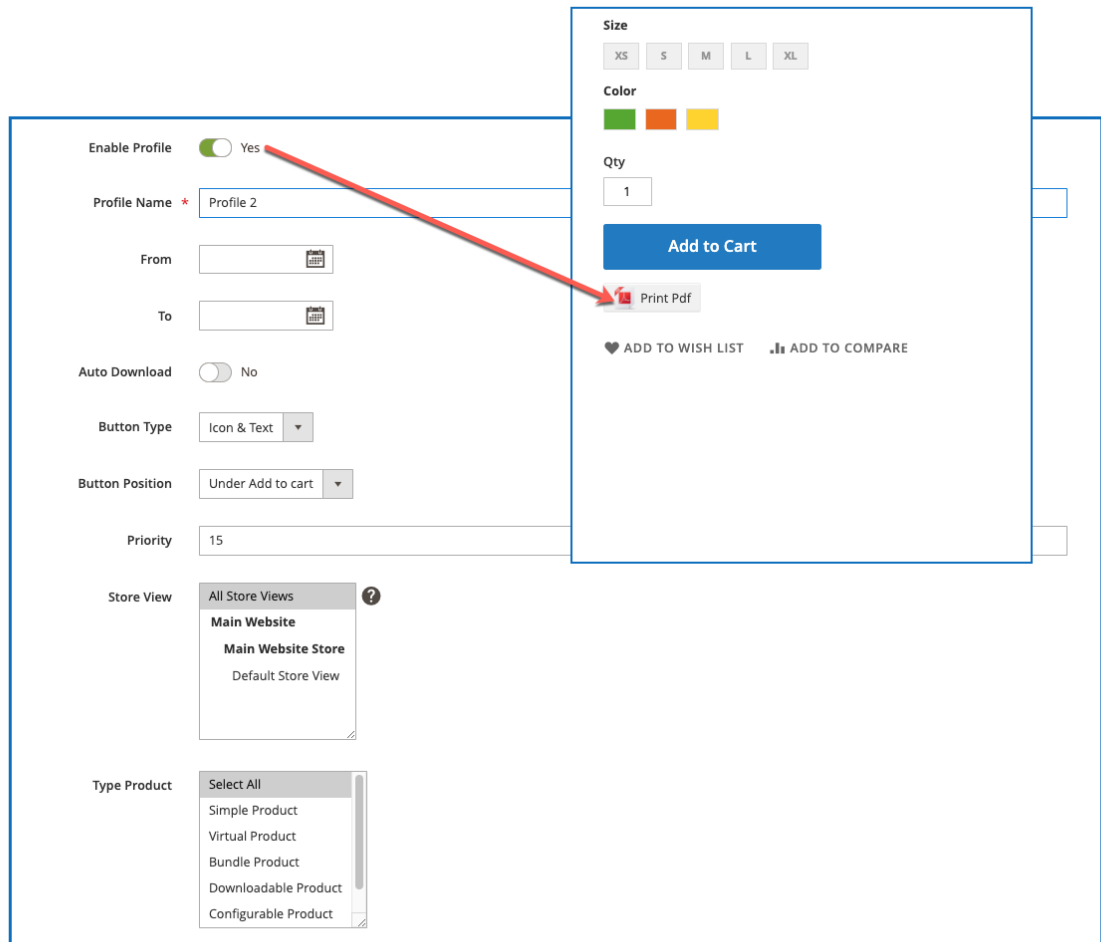

Conditions ⌵

PDF Builder ⌵

PDF Setting ⌵

As you can see above, there are 3 tabs in **New Profile: General, Conditions, PDF Builder, and PDF Settings**. Now, let's move on to the details.

1. General

The screenshot displays the configuration interface for the Product Page PDF. The left sidebar contains the following settings:

- Enable Profile:** A toggle switch set to 'Yes'.
- Profile Name:** A text input field containing 'Profile 2'.
- From:** A date picker field.
- To:** A date picker field.
- Auto Download:** A toggle switch set to 'No'.
- Button Type:** A dropdown menu set to 'Icon & Text'.
- Button Position:** A dropdown menu set to 'Under Add to cart'.
- Priority:** A text input field containing '15'.
- Store View:** A dropdown menu with options: 'All Store Views', 'Main Website', 'Main Website Store', and 'Default Store View'.
- Type Product:** A dropdown menu with options: 'Select All', 'Simple Product', 'Virtual Product', 'Bundle Product', 'Downloadable Product', and 'Configurable Product'.

The right panel shows a preview of the product page. A red arrow points from the 'Enable Profile' toggle in the left panel to the 'Print Pdf' button in the preview. The preview includes:

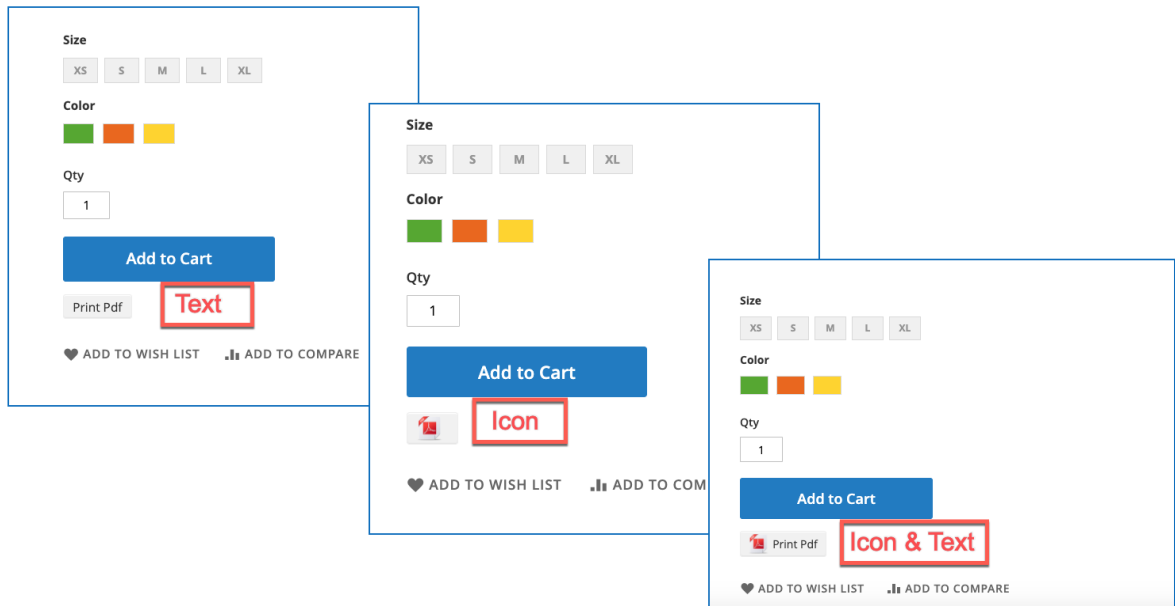

- Size:** Buttons for XS, S, M, L, XL.
- Color:** Three color swatches (green, orange, yellow).
- Qty:** A text input field containing '1'.
- Add to Cart:** A blue button.
- Print Pdf:** A button with a printer icon.
- ADD TO WISH LIST:** A button with a heart icon.
- ADD TO COMPARE:** A button with a flag icon.

- **Enable Profile:** Choose **Yes** to enable the profile.
- **Profile Name:** Type the name of the profile.
- **From/To:** Set the period of time during which the profile is displayed.
- **Enable Auto Download:** Choose **Yes** to enable auto download of the PDF.

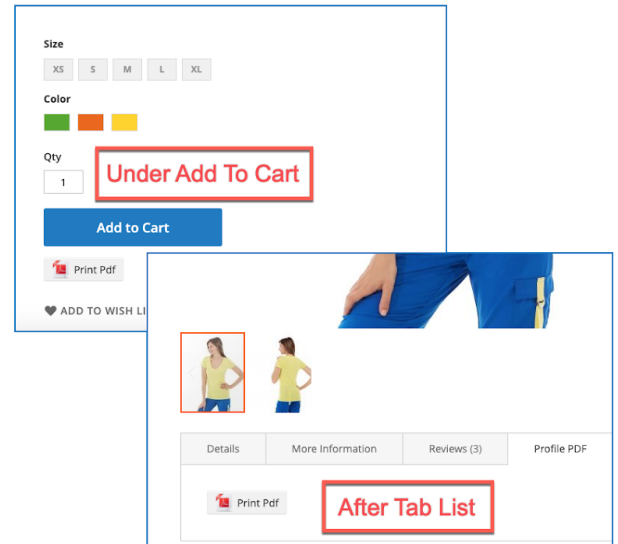

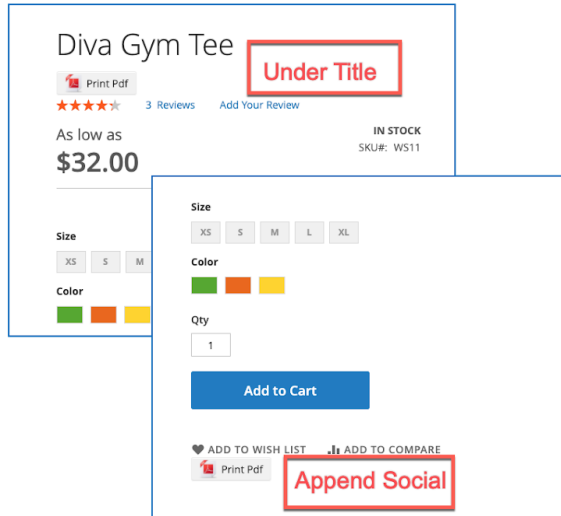

- **Display Style:** Select style to display the PDF link on the product page.

There are 3 styles to display a clickable PDF button:

- Text
- Icon
- Icon & Text

- Display Position: Choose the position to display the PDF button
 - Under Title
 - Under Add To Cart Button
 - Append Social Links
 - After Tab List

- **Priority:** If more than one profile is applied to products, the profile will be assigned in the higher order of priority.

Product PDF Profiles

Add New Profile

Filters | Default View | Columns

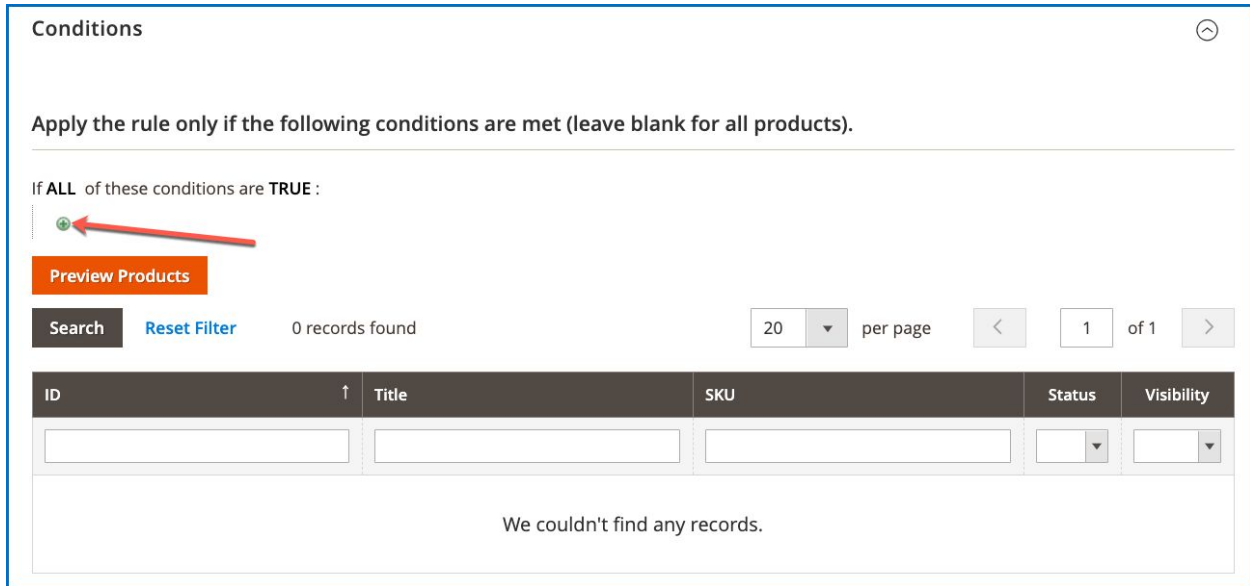

Actions | 6 records found | 20 per page | 1 of 1

	ID ↓	Name	From	To	Button Type	Priority	Status	Action
<input type="checkbox"/>	7	Profile 7			Icon & Text	1	ENABLED	Select
<input type="checkbox"/>	22	Profile 4	2020-09-02 00:00:00	2020-09-11 00:00:00	Icon	5	ENABLED	Select
<input type="checkbox"/>	28	Profile 3			Icon & Text	10	ENABLED	Select
<input type="checkbox"/>	29	Profile 2			Icon & Text	24	ENABLED	Select
<input type="checkbox"/>	30	Profile 5			Icon & Text	90	ENABLED	Select
<input type="checkbox"/>	31	Profile 1			Icon & Text	2	ENABLED	Select

- **Store View:** View the wanted store.
- **Types of Products:** The extension is compatible to 6 types of products including **Simple**, **Configurable**, **Grouped**, **Bundle**, **Virtual**, **Downloadable**.

2. Conditions

You can set conditions to the products you want to apply the layout by choosing your selected attributes such as color, SKU. Simply click on the green plus icon to set the condition like below:

Conditions

Apply the rule only if the following conditions are met (leave blank for all products).

If ALL of these conditions are TRUE:

Preview Products

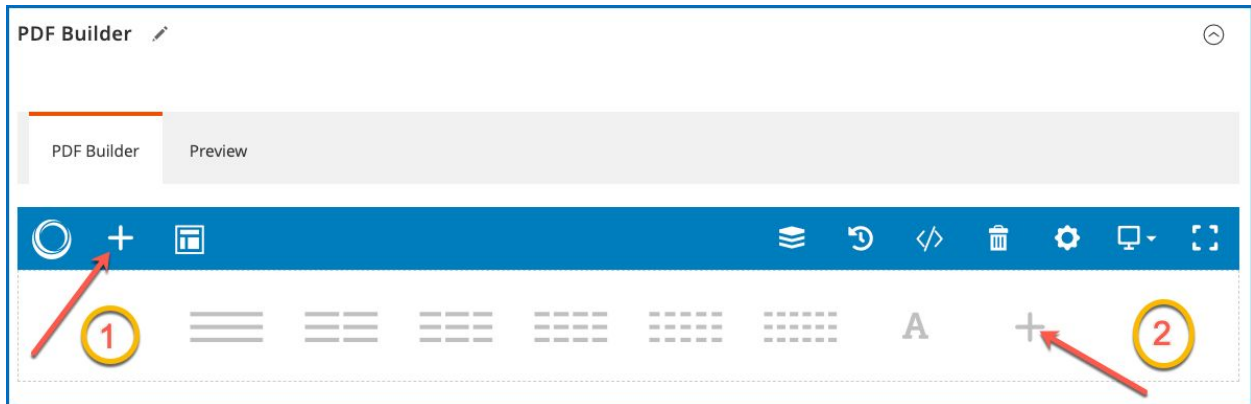

Search Reset Filter 0 records found 20 per page 1 of 1

ID	Title	SKU	Status	Visibility

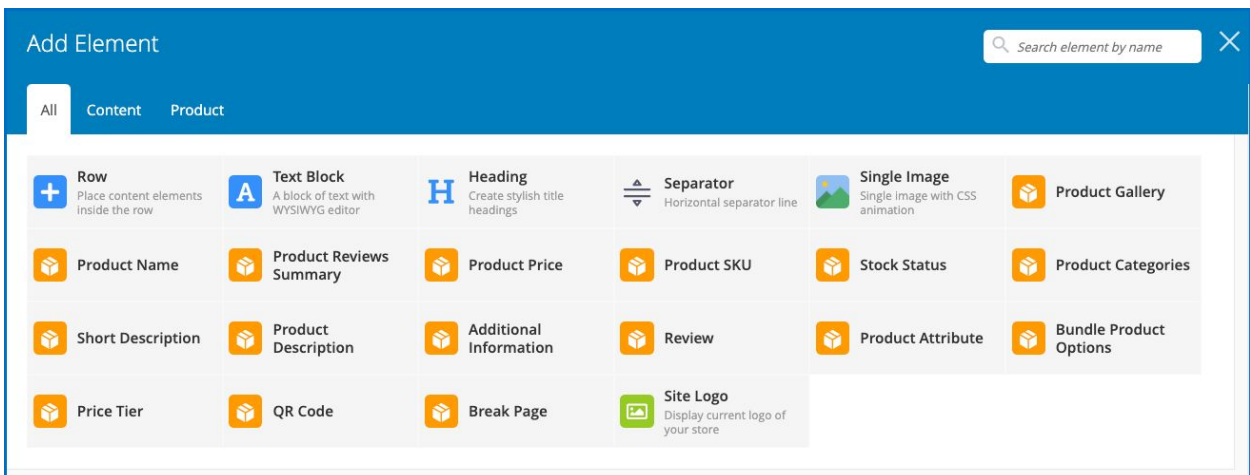

We couldn't find any records.

3. PDF Builder

This is the place where you create a new product page PDF profile. Just add and arrange these elements the way you want. In the frontend, they will be replaced by the product data. To add elements, click the plus icon **(1)** or **(2)**:

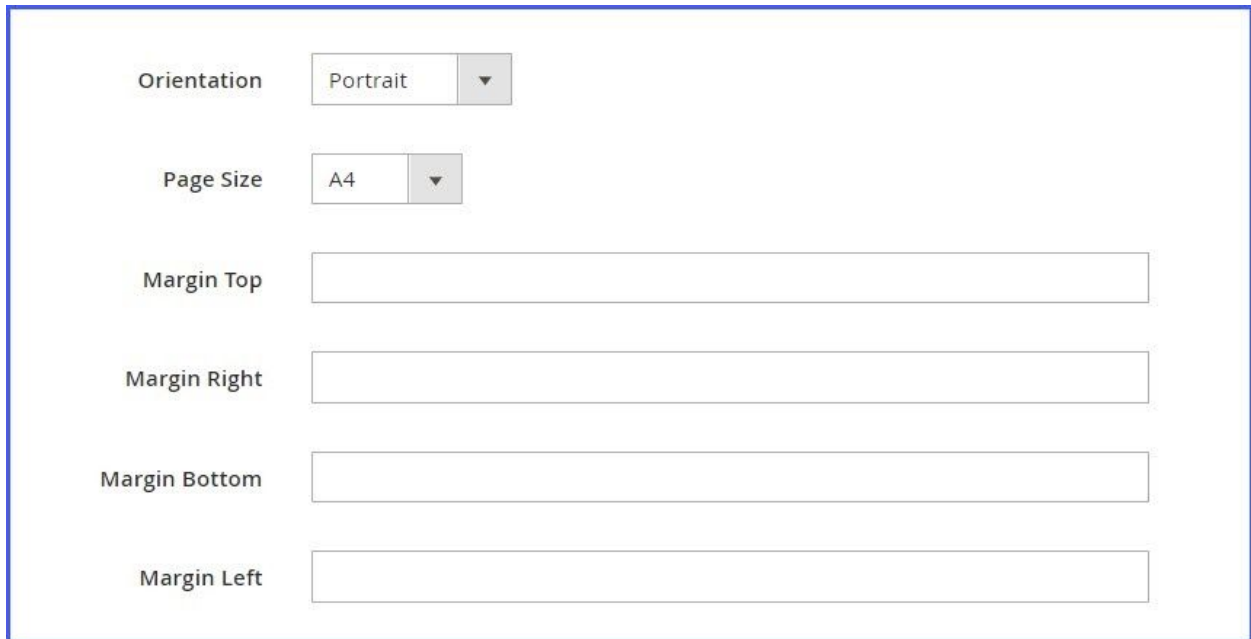

Then, a popup with +20 elements will show up:

You can easily search for an element on the **Search Box** at the top right corner.

4. PDF Setting

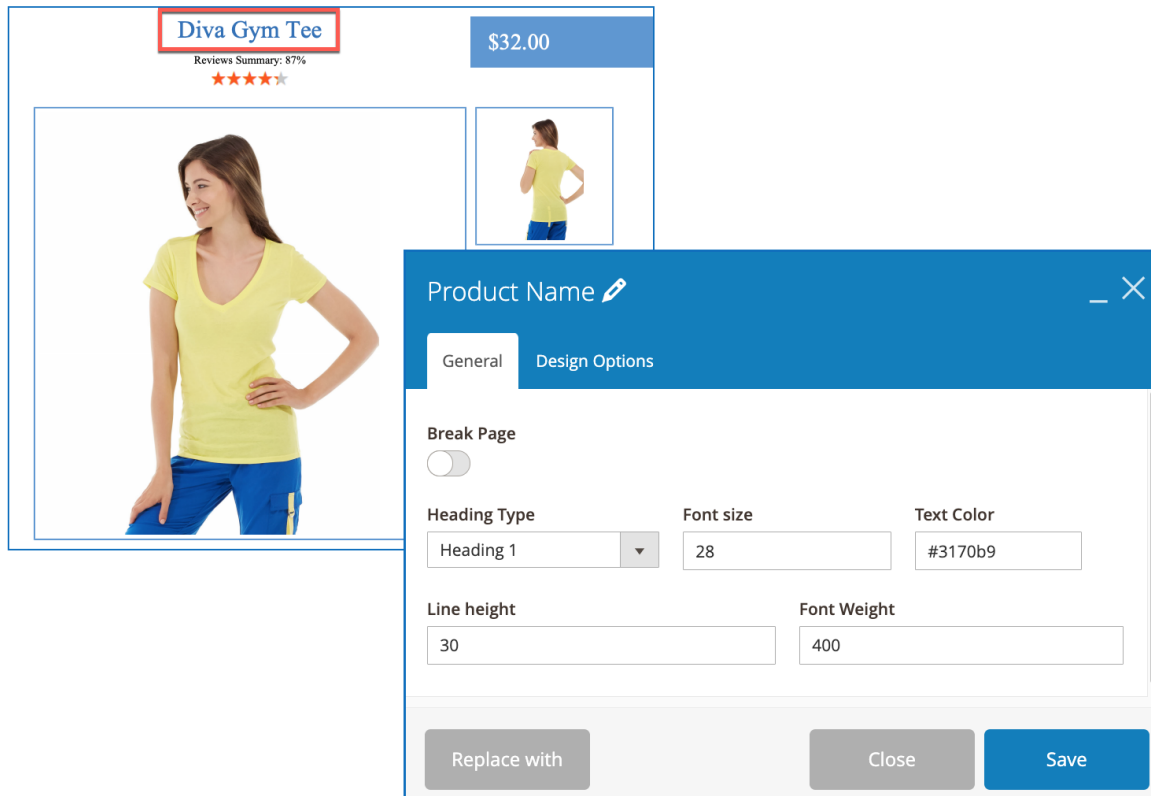

The screenshot shows a form for configuring PDF settings. It includes two dropdown menus for 'Orientation' (set to 'Portrait') and 'Page Size' (set to 'A4'). Below these are five text input fields for 'Margin Top', 'Margin Right', 'Margin Bottom', and 'Margin Left', all of which are currently empty.

- **Orientation:** Select one of 2 different page orientations: **Portrait** or **Landscape**
- **Page Size:** Choose **A4**, **A5** or **Letter** as the page size of the PDF
- **Margin Top:** Set the size of margin on the top of the PDF version
- **Margin Right:** Set the size of margin on the right side of the PDF
- **Margin Bottom:** Set the size of margin on the bottom of the PDF
- **Margin Left:** Set the size of margin on the left side of the PDF

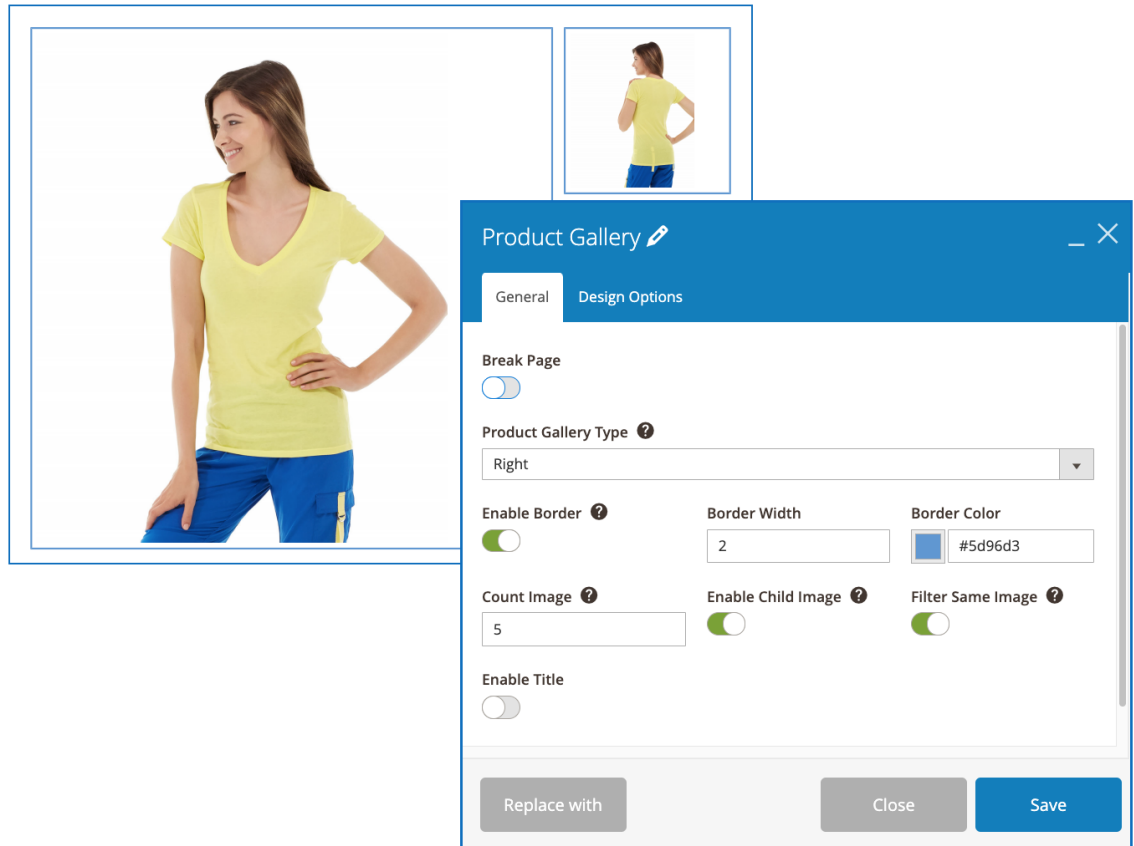

VI) Elements of Product Page PDF Builder Extension

1. Product Name

- **Break Page:** Select whether or not to add a page break
- **Heading Type:** Choose the type of heading for **Product Name (H1>H6)**
- **Text Color:** Select the color for the text of **Product Name**
- **Line Height:** Enter the vertical distance between two lines of texts
- **Font Weight:** Set the thickness for the font of texts

2. Product Gallery

- **Image Type:** Select the display type of the Product Gallery

- **Right /Left/Bottom:** Display the thumbnail images on the right, left and bottom of the base image.

- **One Row/Two Row:** Display product images in one row (each product image is displayed in a row) or two rows (All product images are displayed in two rows).

One Row

Two Rows

- **Enable Border:** Enable adding borders to base image and each thumbnail.
- **Border Width:** Enter the value of border thickness
- **Border Color:** Choose the color for borders
- **Count Image:** Enter the number of images on display.
Note: Maximum=10. In case you add more than 10 images, the number of images on display is still 10.
- **Enable Child Image:** Allow to add the child images (Thumbnails)

3. Product Description

Description

The Diva Gym Tee feels like your favorite right out of the mailbox. Micro-sleeved, lightweight and extra comfortable, it's a casual staple that hides incredible comfort behind a laid-back, carefree look.

- Bright yellow v-neck tee.
- Moisture-wicking fabric.
- Long-Sleeves.
- Machine wash/line dry.

- **Enable Title:** Allow displaying the title of **Product Description**
- **Title Name:** Enter the title for **Product Description**
- **Title Font Size:** Enter the font size for the text of title
- **Title Color:** Choose the color for the text of title
- **Enable Border:** Enable adding the bottom border of the title
- **Border Width:** Enter the thickness of the bottom border
- **Border Color:** Select the color of the title border

4. Product Price

- **Disable Tier Price:** Deactivate the tier price on display
- **Enable Label:** Toggle **Enable Label** to enable/disable the label (As low as \$32 as a label, for example)
- **Font Size:** Enter the font size of the price
- **Line Height:** Enter the vertical distances between two lines of texts
- **Color:** Choose the color of the product price

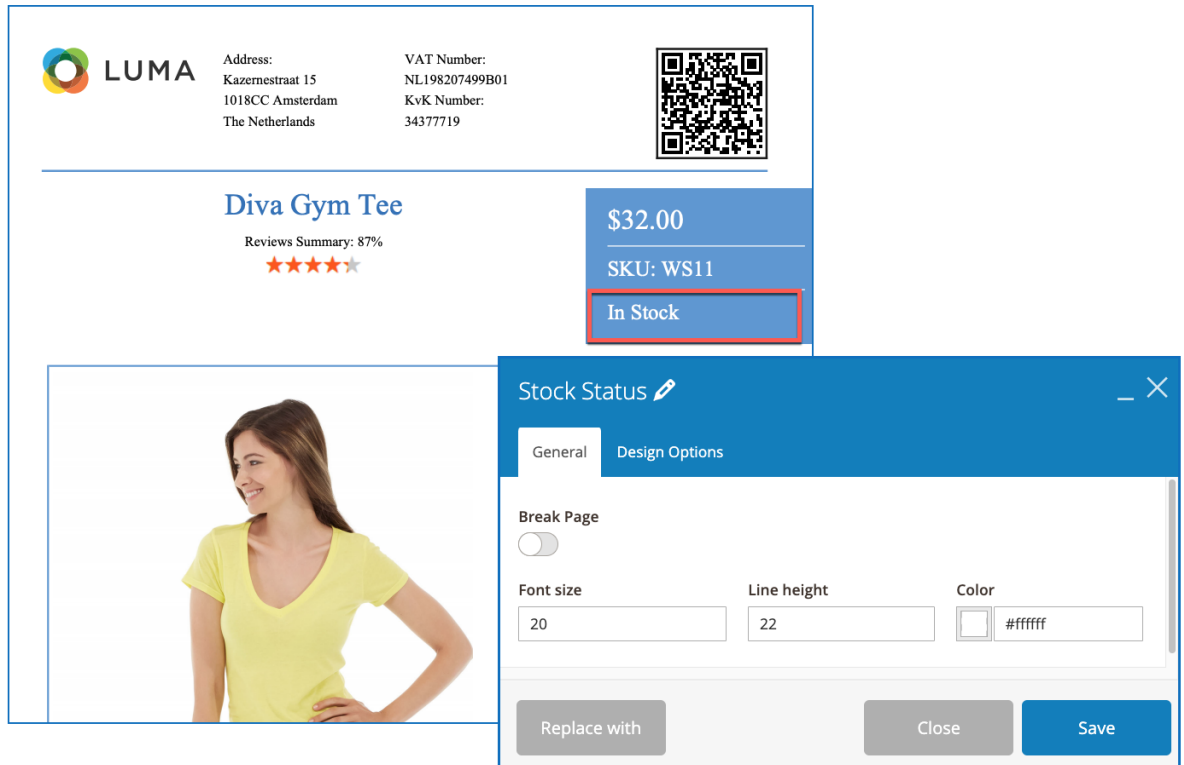

5. Product SKU

The screenshot shows a product page for 'Diva Gym Tee' with a price of \$32.00 and a SKU of 'WS11'. A 'Product SKU' configuration dialog box is open, showing options for 'Break Page', 'Font size' (20), 'Line height' (22), and 'Text Color' (#ffffff). The dialog box also includes 'Replace with', 'Close', and 'Save' buttons.

- **Font size:** Enter the font size for the text of **Product SKU**
- **Line Height:** Enter the vertical distance between two lines of texts
- **Text Color:** Select the color for the text of **Product SKU**

6. Stock Status

The screenshot shows a product page for 'Diva Gym Tee' on the LUMA website. The page includes the LUMA logo, address (Kazernestraat 15, 1018CC Amsterdam, The Netherlands), VAT Number (NL198207499B01), and KvK Number (34377719). The product price is \$32.00, SKU is WS11, and it is currently 'In Stock'. A 'Stock Status' dialog box is open, showing the following settings:

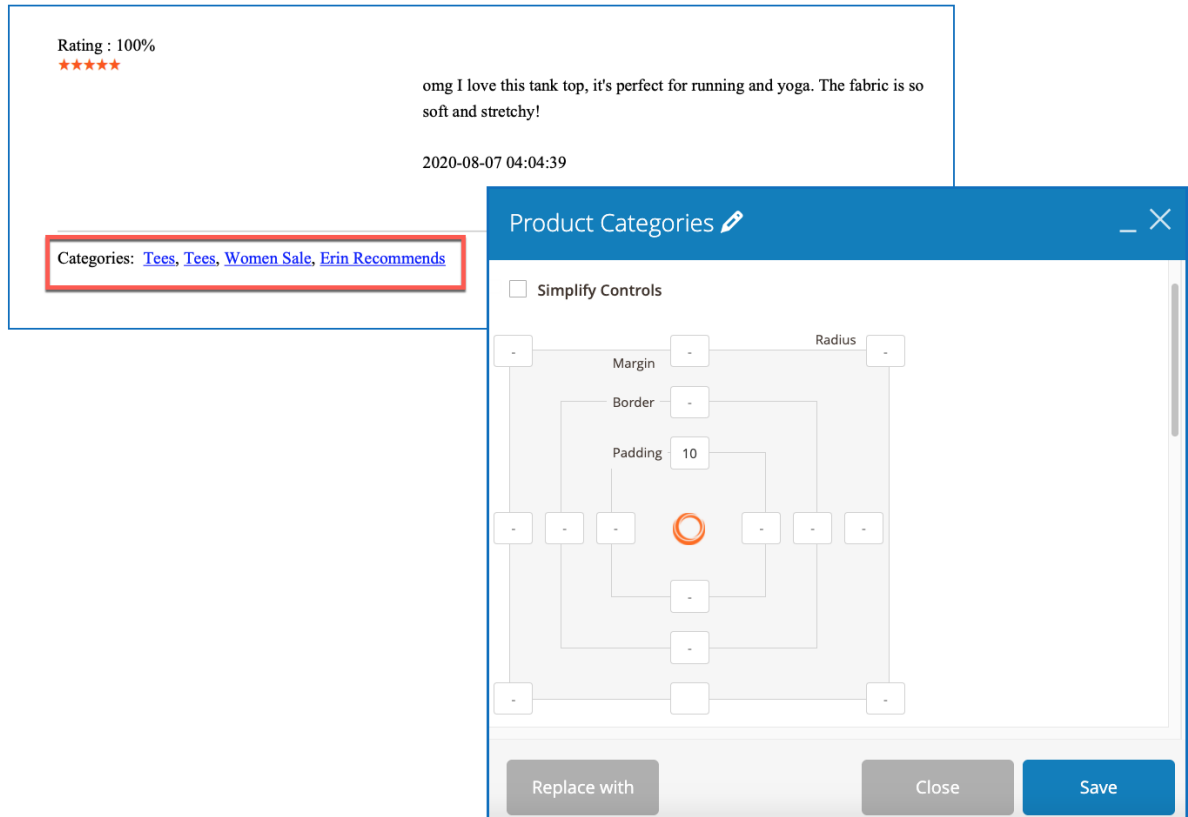

- Break Page:**
- Font size:** 20
- Line height:** 22
- Color:** #ffffff

The dialog box also has buttons for 'Replace with', 'Close', and 'Save'.

- **Font size:** Enter the font size for the text of **Stock Status**
- **Line Height:** Enter the vertical distance between two lines of texts
- **Text Color:** Select the color for the text of **Stock Status**

7. Product Categories

- On the back-end, set padding or margin as wanted. Here is the result:

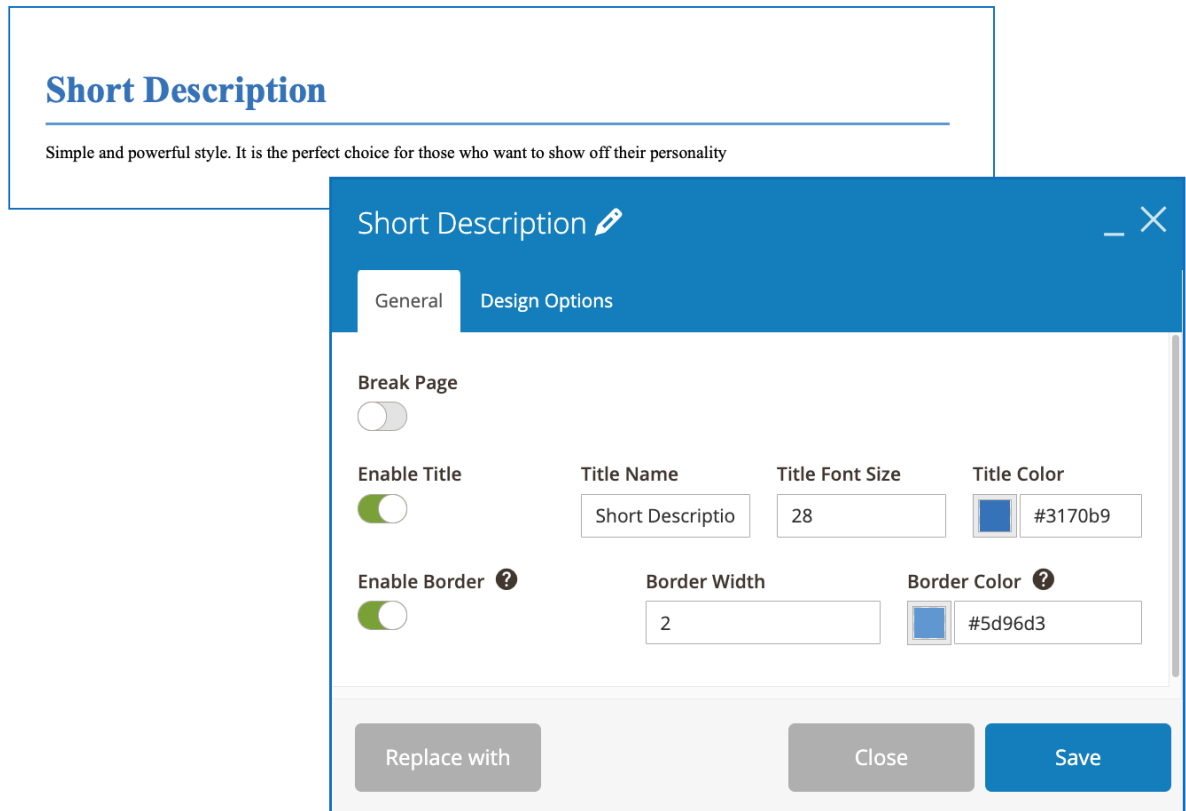

The image shows a product review snippet and a configuration window. The review snippet includes a 100% rating with five stars, a positive comment about a tank top, and a date. A red box highlights the product categories: [Tees](#), [Tees](#), [Women Sale](#), and [Erin Recommends](#).

The 'Product Categories' configuration window is open, showing a 'Simplify Controls' checkbox and a visual layout editor. The editor features a central orange circle with a white border. Surrounding it are various control elements: 'Margin' and 'Radius' labels with minus buttons, a 'Border' label with a minus button, and a 'Padding' label with a text input field containing '10'. The layout is enclosed in a grey frame with corner and side handles.

At the bottom of the configuration window are three buttons: 'Replace with', 'Close', and 'Save'.

8. Short Description

The screenshot displays the configuration interface for the 'Short Description' widget. On the left, a preview shows the title 'Short Description' in blue, followed by the text 'Simple and powerful style. It is the perfect choice for those who want to show off their personality'. On the right, a settings panel titled 'Short Description' is open, showing the following options:

- Break Page:** A toggle switch that is currently turned off.
- Enable Title:** A toggle switch that is currently turned on.
- Title Name:** A text input field containing 'Short Descriptio'.
- Title Font Size:** A numeric input field containing '28'.
- Title Color:** A color selection field showing a blue swatch and the hex code '#3170b9'.
- Enable Border:** A toggle switch that is currently turned on.
- Border Width:** A numeric input field containing '2'.
- Border Color:** A color selection field showing a blue swatch and the hex code '#5d96d3'.

At the bottom of the settings panel, there are three buttons: 'Replace with', 'Close', and 'Save'.

- **Enable Title:** Enable title of **Short Description** on display
- **Title Name:** Enter the title for **Short Description**
- **Title Font Size:** Enter the font size for the title
- **Title Color:** Choose the color for the title
- **Enable Border:** Enable adding the bottom border of the title
- **Border Width:** Enter the thickness of the border
- **Border Color:** Select the color of the border
